

Potential Ways to Simplify Combinations

- Combine like efficiencies for planting timing:
 - Old options = Early, Normal, Late
 - Potential new options = Early/Normal, Late
- Combine like efficiencies for planting type:
 - Old options = Drilled, Other, Aerial
 - Potential new options = Drilled, Other/Aerial
- Combine like species
 - Old options = 13 unique species
 - Potential new options = 4 species groups - Rye, Small Grains and Brassicas, Grasses Oats and Radishes, Annual Legumes
- Potential reductions
 - Old options = 94 unique practices
 - Potential new options = 25 unique practices
