

Discussing a path forward

AMT

3/8/2024

How might we proceed with THIS topic?

- If we WANT to make changes, we need to hear proposals.
 - Decisional actions which can achieve consensus support.
- Without any proposals we will stay with what we have.
- Decisions do not have to be finalized until 2025.
 - We can make a “sandbox decision” where we make multiple decisions and see how CAST operates.

We have heard some information:

- What do you think:
 - Good?
 - Bad?
- Is the Phase 6 method good enough?
 - Is the principle accurately represented?
 - What are the principles you think are wrong?
- Has our level of understanding changed?
- Do we have new information?
