

Recap

5/10/2024

April 2024

Manure acres

- Determination
- New data

Since then

Concerns were raised over the current categories of ag Land Uses

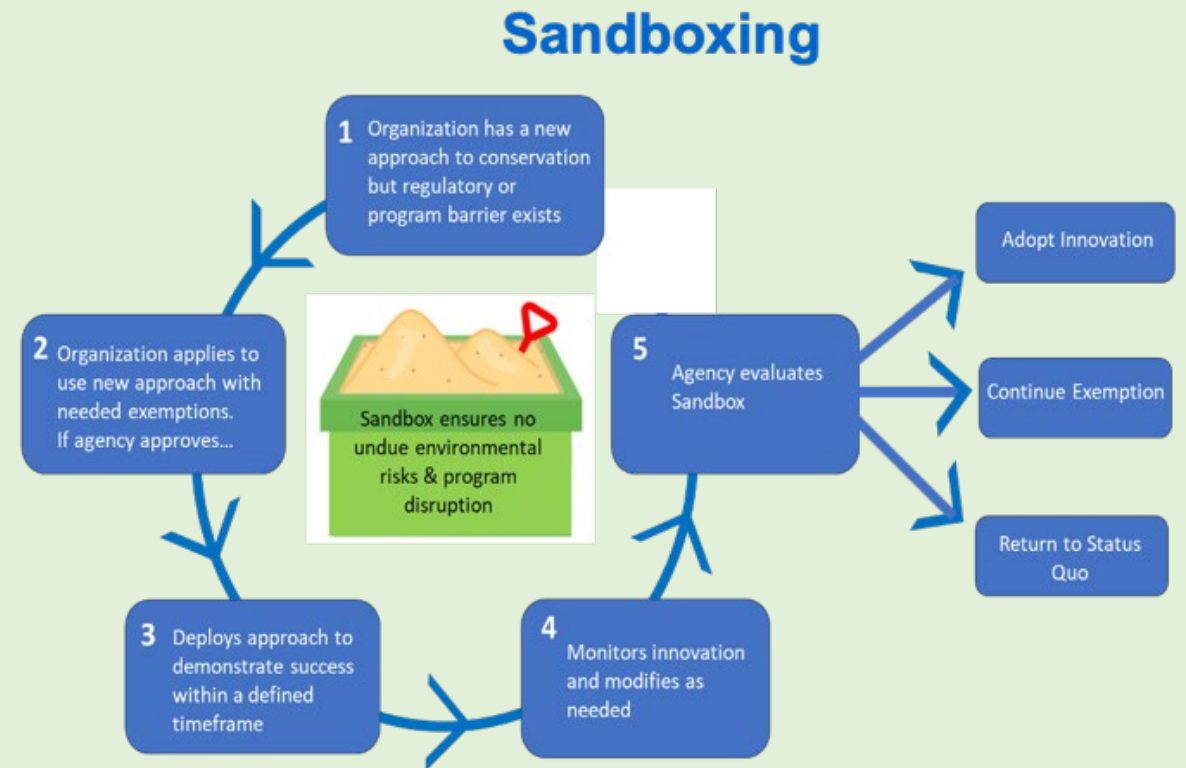

NASS annual county level surveys have been dropped.

That leads us to two things:

1. Sandbox decision on Ag Land Uses
2. Discussion about annual NASS data

Note on Sandbox voting:

- Need to move forward
 - Nov 2025 deadline
- Cannot test an infinite number of possibilities
- Way to chart a path forward and approve the greater body after we make several changes
