

Tillage Panel

- Since September.....
 - 2 Conference calls, 10/15 and 11/2
- Assess current categories or 'breaks' in residue cover with various practices
- Draft reduction values for sediment, including new low residue, ST/NT practice
- Draft reduction values, by physiographic region for N, including new low residue, ST/NT practice
- TBD
 - Phosphorus!
 - Final matrix between NRCS STIR and SCI values and residue/tillage practices, comparative in nature
