

# NM Expert Panel Update

- Held meetings 3/28 and 4/9.
- Discussed both short term P5.3.2 goals and “long” term P6 goals.
- Panel is on track for short term recommendations at end of Summer for full approval in Fall.
- Final recommendations should come by end of 2012.

# NMEP Discussions

- A 3 tiered approach to nutrient management with the 590 standard at heart was unanimously approved.
  - Sub 590
  - 590
  - Enhanced 590
- New working definitions for the report(s) are being drafted for discussion.
- BMP crediting options have been outlined
