

Chesapeake Bay Program Phase 6 Agricultural Land Use Alternate Proposal

Agriculture Workgroup

February 14, 2013

Cropland Land Use

Rotational: Grain-Forage + (Manure/Fertilizer)

Long-term: Grain Crops + (Manure/Fertilizer) or (Fertilizer)

Long-term: Hay Land + (Manure/fertilizer) or (Fertilizer)

BMPs

Appropriate agricultural BMPs are distributed across the cropping systems; e.g. corn BMPs in rotation system of C-C- A-A-A would be 2/5 of the C-C-C-C-C BMP.
