

Agriculture Workgroup Vice Chair Nomination (2024 – 2025)

Dr. Caitlin Grady Bio

Dr. Grady is an Assistant Professor in the Engineering Management and Systems Engineering Department at The George Washington University in Washington DC. Prior to joining GWU, Dr. Grady served as an Assistant Professor at The Pennsylvania State University. Her academic background and research expertise spans a variety of engineering and policy domains across food, energy, and water systems. This includes both qualitative and quantitative approaches to studying systems such as agriculture, water resources, and adaptation to climate change. Prior to her academic roles, she held several federal government roles including with the House of Representatives, the Department of Energy, and the Department of State. She also previously volunteered as a mediator for the Pennsylvania Agricultural Mediation Program where she served as an impartial intermediary supporting agricultural producers to resolve disputes of various kinds across the Commonwealth of Pennsylvania.
