

**Chesapeake Bay Program
Budget & Finance Workgroup
2017 Finance Meetings with GITs and/or Workgroups**

These joint meetings between the Budget & Finance Workgroup (B&FWG) and GITs/Workgroups are intended to serve as follow-up to each of the Biennial SRS Quarterly Review Meetings with the Management Board.

GITs/Workgroups will use the information from these meetings to come to the B&FWG with finance-related questions and topics that they desire input and expertise on. These meetings are not intended to serve the function of providing GITs/Workgroups with a list of possible funding/financing resources, but as a consultation for GITs/Workgroups to understand how finance opportunities can help them progress in completing their workplan actions.
