Presenter: Diana Esher, Acting Region III Administrator
Materials:
III. Presentation on CBP competitive, non-earmarked funds
- IV. **Approval of Plan for Assessing CBP Monitoring Funding Needs** 2:15 p.m. – 2:30 p.m.
During the March 2 PSC meeting, the CBP partners were asked to assess the level of funding needed to improve the capacity of CBP monitoring programs. The traditional CBP water quality and living resource monitoring networks (i.e., tidal and nontidal water quality, SAV and benthic macroinvertebrates) have been reduced and stressed while accommodating inflation, program vulnerabilities and flat funding over the past decade. Currently, monitoring needs exceed network capacities with some long-standing gaps. CBP leadership will provide an overview of the plan which includes: (1) An evaluation of current networks' capabilities and

vulnerabilities, and (2) Information on what is needed to improve the monitoring networks that includes incorporation of new tools, data collection and data evaluation methods.

Decision: Approval of the plan for evaluating monitoring program status and needs with formal recommendations expected in early 2022.

Presenters: Lee McDonnell, Chief, Science, Analysis, and Implementation Branch
