

# Thoughts on new outcome name? Red flags and ideas

Preparedness, Risk Management, Response are terms to consider

Nature based solutions

"Dynamic systems in the Chesapeake Bay"

EPA senior leadership acknowledges the new name is longer, but is comfortable with the proposed name

1. Risk-informed weather-readiness planning, 2. Dynamic planning 3. System durability

Measuring Ecosystem Responses (MEM)

Nature-based vitality group

Natural hazard adaptation, natural hazard resilience

# Thoughts on new outcome name? Red flags and ideas

Climate change is fact. Hard to think that from now until 2040 we disregard it.

Tenacious adaptation

Maintaining Flexibility in Changing Conditions

Economic ecosystem opportunity

Dealing with natural hazards

Nature-based preparedness

I like dynamic systems or dynamic planning

Navigating Nature

# Thoughts on new outcome name? Red flags and ideas

Planning for the future

Natural assets for  
adaptation

Hazard preparedness

Additional terms:  
robustness, plasticity

Flowing with change

Nature Responses

Natural Assets to make  
the future great (again)

Dynamic system  
adaptation

# Thoughts on new outcome name? Red flags and ideas

Nature-based future preparedness

Chesapeake Bay Prepares for Future Ecosystems

Ecosystems of the Chesapeake Bay Future

Responding to Environmental Change (REC)

Planning for Environmental Change (PEC) Achieving Diverse and Prepared Ecosystems (ADaP)
