- 10:05** **Goal Team Modeling Needs to Inform the upcoming STAC workshop--** *All Coordinators, facilitated by Scott Phillips*
STAC has an upcoming workshop on the future directions of the CBP models. STAR has been invited to provide a brief overview of modeling needs that need to be considered in addition to water quality. We would like each of the Goal Team Coordinators to provide their several of their modeling needs for the future. We anticipate to have a slide for each of the CBP Watershed Goals to organize the presentation of modeling needs.

It's that time again to apply for STAC workshop funds. The Committee is now accepting proposals for responsive workshops from CBP committees and partners throughout the Chesapeake Bay Partnership for the fiscal year 2018 budget cycle (beginning on June 1, 2018 and concluding on May 31, 2019).
