MWEE AMBASSADOR TRAINING

MWEE Ambassador Training

MWEE Ambassador Training

Welcome!

The Environmental Literacy Forum is an annual gathering of leaders from across the Mid-Atlantic region to engage in meaningful discussion about the integration of environmental literacy into formal education. The 2017 forum will have a special focus on Meaningful Watershed Educational Experiences (MWEEs) which are increasingly used as a modeled approach to learning. Participants at this years forum will be among the first cadre of MWEE Ambassadors on regional, state, and local levels.

This short online module will ensure that we are up to speed on MWEEs prior to the Environmental Literacy Forum on November 29-30. This module will take approximately 30 minutes to complete.

When you're done, we hope you will jot down your questions and comments in our Padlet or virtual bulletin board [HERE](https://padlet.com/elise_treigan/sxb1Luvjes25) (https://padlet.com/elise_treigan/sxb1Luvjes25).

NOTE: The tool we are using to capture comments and questions is called Padlet. There is both a mobile app and a web interface for using Padlet.

ADDITIONAL NOTE: We plan on using this tool during the forum as well, so downloading the app or becoming familiar with this site will be helpful.

The app is available:

iTunes: <https://itunes.apple.com/us/app/padlet/id834618886?ts=1&mt=8>

Google Play: <https://play.google.com/store/apps/details?id=com.wallwise:Padlet>

The Padlet is embedded below. To add a comment or question you can simply click in the Topic box where you want to leave a comment. Click below the last comment.

What's Still Not Clear?

After reviewing the MWEE Essential Elements and their Audit Tools, what clarifying questions do you have?

MWEE videos

Contract currently being awarded through Chesapeake Bay Trust to videography firm; Filming to take place in Spring/Summer 2018

Videos finalized August 2018

Current thinking is 9 videos:

- 1 - Promotional video
- 4 - Videos on MWEE essential elements
- 1 - Video on supporting practices
- 3 - Videos on Evaluating, Communicating, and Funding MWEEs

Gut Check: High-Level Goals for Online Course

- To establish a cadre of MWEE Ambassadors
- To expand our capacity to reach people through our other efforts (in person trainings, one-on-one mentoring, etc.)
- To provide a venue for resources to live, for discussions to take place, and sharing among the community

Are these on target? What's missing?

Potential Arc

- Background and history of MWEEs
- Deep dive into Essential Elements
- Supporting Practices
- MWEE case studies
- MWEE-ify your program
 - Possibly for a certificate (using Think Cloud / ELM Model)
- Becoming a MWEE Ambassador
 - Resources for hosting your own MWEE training
