# **Joint LLWG/LGAC Meeting – March 2023**

- LLWG Member: *“My biggest takeaway from today's joint LGAC/LLWG meeting was that having an informal frank discussion between local government and state agencies was invaluable. Beyond the usual commiserating with other local governments, I learned several key details about our obstacles from the agency staff that they never shared during formal meetings.”*
- CBP Staff: *“thank you for including us in these robust and critical discussions. It was really helpful for me to hear directly (and frankly) from local government and local leadership representatives about thoughts, concerns, and recommendations about what’s needed and what are priorities heading towards and beyond 2025.”*
