

# Fish Passage Workgroup Updates:

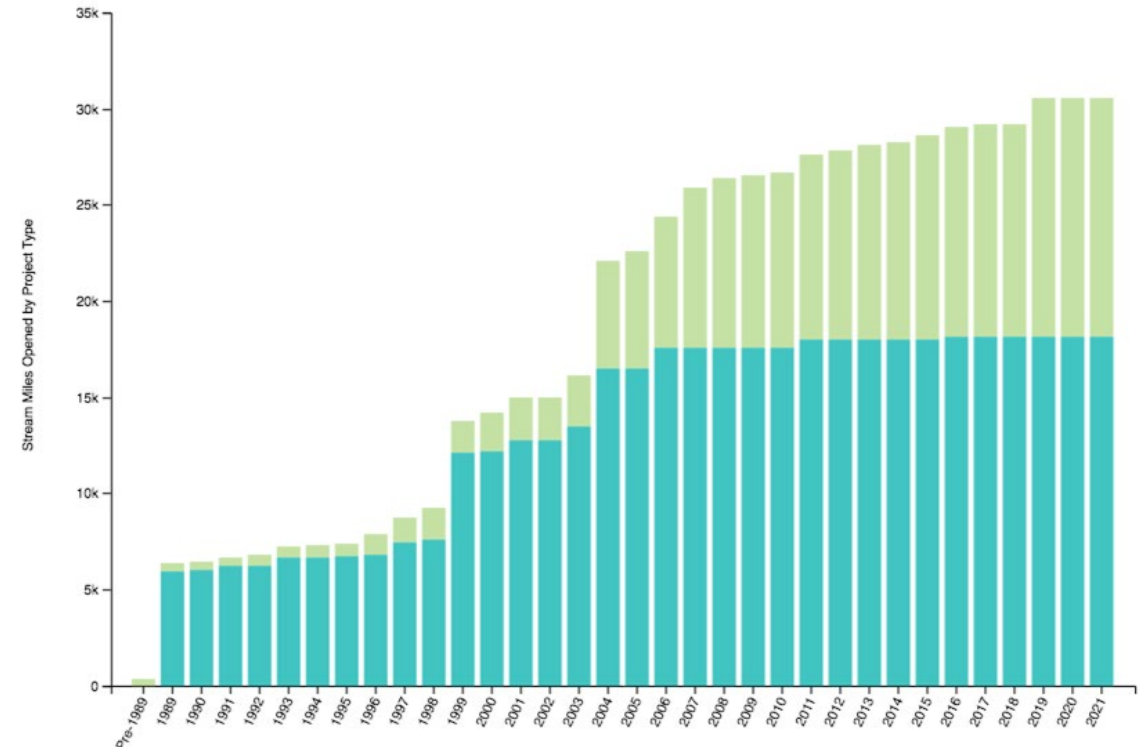

- **WG meeting:**
  - Broader participation
  - Prepare for SRS
- **2022-2023:** won't meet 132-mile target
- **Biggest challenges:**
  - COVID 19
  - Owner willingness
  - Funding and staff capacity
- **2024-2025:** anticipate will meet 132-mile target

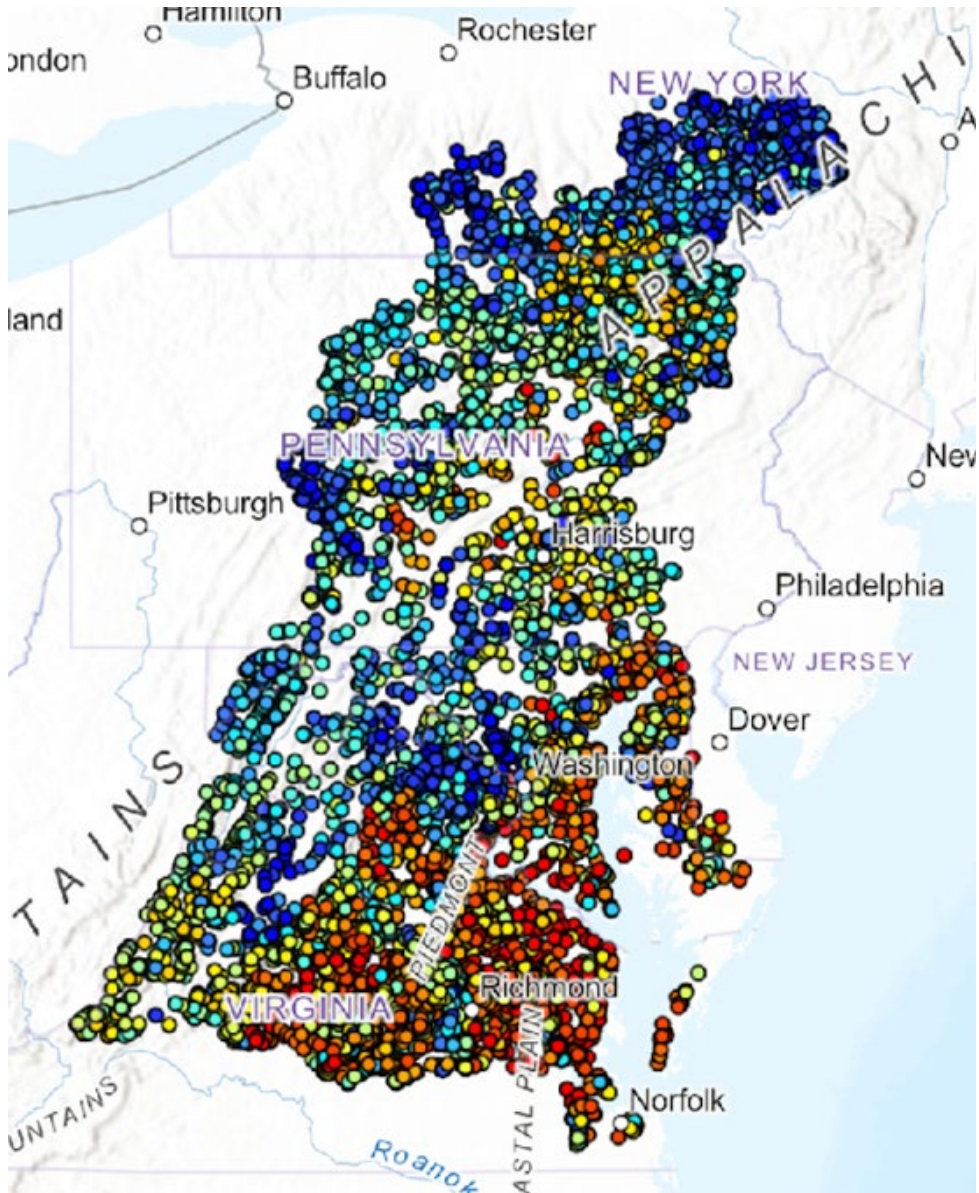

## Stream Miles Opened 1988-2021 (Cumulative) 📊

Stream Miles Opened to Fish Passage via Dam Removals and Fish Passage Projects.

---

# Looking Forward:

- **Meet with Amy Handen / CBP Social Scientist** on owner willingness
- **Dam removals and road-stream crossings**
  - Infrastructure resilience and BIL
  - Engage Fed and state DOT's
- **Cross-Outcome coordination with Brook Trout Action Team**
  - Shared interests: prioritization tool, road-stream crossings, thermal loading with dams?
- **Community of practice**
