

WEAVING OUR WORK TOGETHER

Kristin Saunders, Cross Program Coordinator, UMCES
November 9, 2021

Indirect priorities – qualitative, inclusive, consider human element

- Infusing Social Science and Ecosystem Service valuation into our work
- Ensuring that we have considered Diversity Equity Inclusion and Justice (DEIJ) considerations into workgroup and HGIT decisions
- Coordinating and working across the partnership to ensure we are leveraging resources towards common goals

Direct priorities – measurable, quantitative, relative to our Habitat outcomes:

- Shallow water habitat conflicts
- Incorporating climate change into workgroup activities (thermal changes in streams, wetland impacts due to sea level rise)
- More focus on creating habitat in the urban portions of our watershed
- Improve outcome tracking and reporting for wetlands, black duck, and brook trout workgroups

Backdrop Components to Consider

Federal and State Policy and Budget Opportunities

Climate Directives

Backdrop Components to Consider

Diversity Equity Inclusion & Justice

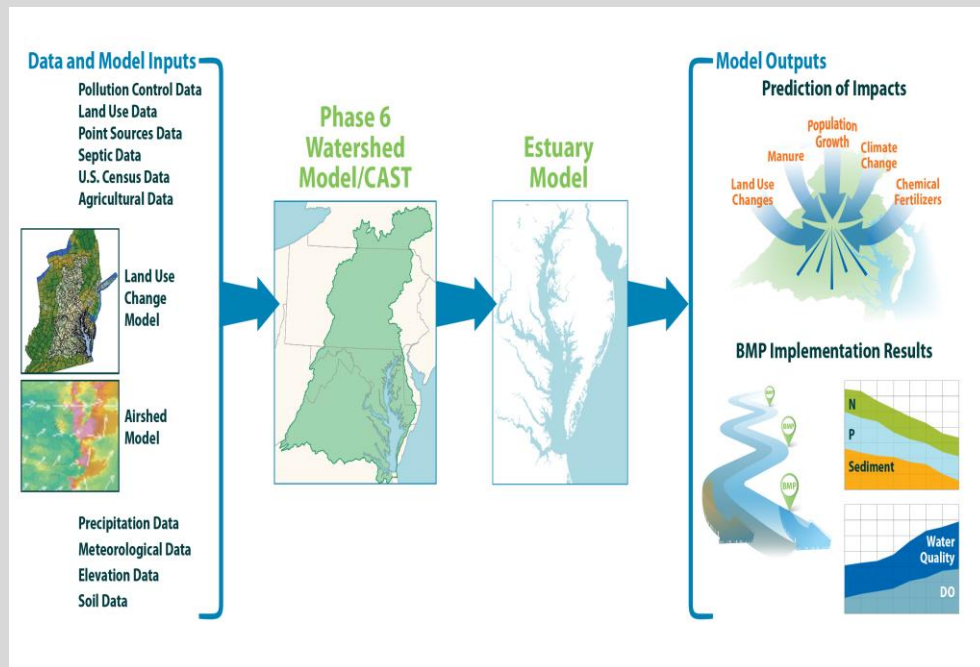

Outcome Attainability

Backdrop Components to Consider

Phase 7 Model Plans

World Class Monitoring Network Plans

LET'S WEAVE!
