This meeting will be recorded for internal use to assure the accuracy of meeting notes.

AGENDA

10:00 – 10:05 Welcome – Vanessa Van Note (EPA) and Breck Sullivan (USGS)

Announcements -

- CERF Conference – Identify members serving as presenters
- Chesapeake Community Research Symposium - June 6-8, 2022, Annapolis, MD. (Hybrid: virtual and in-person. [Subscribe here for updates.](#)) Session proposals due December 1, 2021.

10:05 – 11:00 Update from WQGIT Monitoring Meeting

The CBP monitoring team and USGS presented monitoring findings, and discussed with the jurisdictions and other CBP partners, opportunities to apply the monitoring results and modeling tools for water-quality decision making at a recent WQGIT meeting. We will provide feedback received from participants and go over responses to the JamBoard where stakeholders commented how they want to work with the team to further apply and interpret the monitoring results.

11:00 – 11:50 Discussion on small group activities for Tributary Summaries

Stakeholders are interested in utilizing JamBoard and continuing small group discussions on how to incorporate “insights on change” into the other tributary summaries. The ITAT Co-Coordinators are interested in hearing from the workgroup how the Potomac small group operated, lessons learned from the effort, and feedback on how to move forward. Some questions to consider:

- What should these small groups look like?
- What type of expertise is needed in these groups?
- Where should they happen with stakeholders?
- How do we improve capacity for these summaries?

- What information do we want to include in the Insights in Change section?

11:50 – 12:00 Rescheduling Discussion for the November ITAT Meeting

12:00 Adjourn
