

Normand Goulet is the Director for the Northern Virginia Regional Commission's Division of Environmental and Resiliency Planning. He joined the Commission in 1991 with a focus on water resources management and is responsible for overseeing the Commission's environmental staff and programs as well as managing the Region's Stormwater, MS4, and Chesapeake Bay Programs. On good days he actually admits to being the Chair of the Chesapeake Bay Programs' Urban Stormwater Workgroup, an At-Large member of the Chesapeake Bay Programs' Watershed Technical Workgroup, and the Land Use Workgroup.
