

Executive Council Commitments and Advisory Committee Recommendations Management Board Discussion Draft – October 18, 2018

Objectives for the Meeting:

1. For the Agricultural Technical Assistance Directive
 - a. Determine leads for follow-up actions
 - b. Discuss specific deliverables for the leads
2. For Advisory Committee recommendations
 - a. Review suggested leads for responding
 - b. Assign lead for responding to the recommendations
 - c. Discuss next steps

Agricultural Technical Assistance Directive

	Directive Commitment	Action Lead	Status
1	Technical Assistance: Strive to provide stable and sufficient technical assistance in order to help farmers implement the conservation practices necessary to meet Bay TMDL goals.	<ul style="list-style-type: none"> - Jurisdictions identify TA needs and gaps through WIP Development. - Ag Workgroup for gaps analysis. - Ag workgroup to convene USDA, CBC, EPA, and jurisdictions to identify where programs will meet gaps. 	<p>Jurisdictions submitted draft WIPs on April 12.</p> <p>Not started. Discussion on ag technical assistance directive actions is on the agenda for the April 18 Agriculture Workgroup meeting.</p>
2	Technical Assistance: Diversify and expand the network of public, private and nonprofit providers of technical and financial assistance to ensure that on-farm support is available to meet the agricultural sector load reductions.	<p>Ag Workgroup for recommendation. Examples of areas to explore include:</p> <p>USDA – Contribution Agreements</p> <p>NFWF – Through RFP process for SWG and INSR</p>	<p>Not started. Discussion on ag technical assistance directive actions is on the agenda for the April 18 Agriculture Workgroup meeting.</p>
3	Technical Assistance: Expand technical assistance capacity through the use of cooperative agreements and other	To Ag Workgroup for recommendations	<p>Not started. Discussion on ag technical assistance directive actions is on the agenda for the April 18 Agriculture Workgroup meeting.</p>

	tools that combine federal, state, local and private resources to target priority agricultural resource concerns.		
4	Technical Assistance: Enhance and coordinate critical agricultural conservation programs to ensure they offer the flexibility and capacity needed to incentivize farmers to install practices, including riparian forest buffers, to help meet the goals of the Bay TMDL.	To Ag Workgroup for recommendations. Example of a potential path forward may include: <ol style="list-style-type: none"> 1. CBP Convene listening sessions with farmers, stakeholders, etc. to determine areas where flexibility and capacity are needed. 2. USDA – collect information on what specific needs farmers have through the outreach they are planning under their 3-year plan for the Chesapeake Bay 	Not started. Discussion on ag technical assistance directive actions is on the agenda for the April 18 Agriculture Workgroup meeting.
5	Workforce Development: Enhance the job climate for government technical assistance professionals by exploring how to make training and certification more streamlined and accessible, along with the development of two-year certification programs, innovative training forums and education loan assistance programs.	Ag Workgroup for recommendations. Example of action – Convene a meeting with Land Grant universities to explore what they are doing with certification, identify skills needed for that certification program to be acceptable to the TA providers.	Not started. Discussion on ag technical assistance directive actions is on the agenda for the April 18 Agriculture Workgroup meeting.
6	Evaluation: Report on progress made toward this directive at the 2019 Chesapeake Executive Council meeting.	Management Board	Not started.

Citizens' Advisory Committee

	Committee Recommendation	Lead for Responding	Status
1a	<p>Phase III Watershed Implementation Plans and Local Planning Targets</p> <ul style="list-style-type: none"> - Encourage jurisdictions to continue with the development of programmatic infrastructure and financial support for meaningful BMP verification as a part of implementation of Phase III WIPs, particularly in accounting for growth and land use changes as state in the EPA expectations document. 	WQ GIT	
1b	<p>Phase III Watershed Implementation Plans and Local Planning Targets</p> <ul style="list-style-type: none"> - Recommend the jurisdictions integrate <i>Watershed Agreement</i> outcomes into the water quality restoration plans to incentivize practices that offer corollary ecological benefits and to encourage meaningful participation in local planning targets supporting local economies and communities. 	WQ GIT	
2a	<p>Forest buffers and wetlands</p> <ul style="list-style-type: none"> - Develop programmatic, policy and financial capacity for increasing forest buffers and establish the Phase III IPs and two-year milestones. 	WQ GIT/Forestry WG	
2b	<p>Forest buffers and wetlands</p> <ul style="list-style-type: none"> - Include technical assistance and education on multi-functional forest buffers like nut and fruit trees are riparian production crops on agricultural lands – as some U.S. jurisdictions and Central American countries have had great success. 	Forestry Workgroup/Wetlands Workgroup	
2c	Forest buffers and wetlands		

	<ul style="list-style-type: none"> - Meet with the U.S. Secretary of Agriculture to encourage the prioritize area water goals. 	EPA	
2d	<p>Forest buffers and wetlands</p> <ul style="list-style-type: none"> - Communicate to local implementers the co-benefits and cost savings that buffers and wetlands provide in protecting drinking water sources and flood mitigation. 	WQ GIT/Forestry Workgroup	
2e	<p>Forest buffers and wetlands</p> <ul style="list-style-type: none"> - Reformulate state funding vehicles such as Section 319 Clean Water Act Grant programs and State Revolving Local Funds for forest buffers on non-agricultural lands. 	EPA	
3f	<p>Forest buffers and wetlands</p> <ul style="list-style-type: none"> - Simplify the information and process the states provide for landowners to find and apply for Conservation Reserve Enhancement Program, Wetlands Reserve and other conservation practices. 	Ag Workgroup/WQ GIT	
4a	<p>Environmental education and literacy</p> <ul style="list-style-type: none"> - Encourage you to also consider going further and including elements of workforce development and training to support the next generation of stewards with options for living wage environmental careers such as: storm water control, water and wastewater operations; construction and maintenance of green infrastructure; stream rehabilitation; and pollution control and cleanup. 	Env Lit. Workgroup	
4b	<p>Environmental education and literacy</p> <ul style="list-style-type: none"> - Strongly encourage the jurisdictions that do not yet have the capacity to pursue all actions in the proposed Environmental Literacy directive to at least meet the baseline of participating in the 	Env. Lit. Workgroup	

	<p>conference of high-level leaders every two years to discuss progress of <i>Watershed Agreement</i> Environmental Education goals and outcomes. Participation will increase understanding which can begin to build capacity based on the successful models used in other jurisdictions.</p>

DRAFT

Local Government Advisory Committee

	Committee Recommendations	Lead for Responding	Status
1a	Local government engagement - Create more opportunities to engage in open dialogue in meetings with local government officials.	Communications Workgroup, Local Leadership Workgroup, LGAC	In-progress. In 2018-19, LGAC sponsored nine Virginia roundtables, 14 Pennsylvania forums and on-going elected official panels at state conferences.
1b	Local government engagement - Regulatory agencies need to provide clear direction on how to comply with statutory and regulatory requirements.	Management Board	Not started.
1c	Local government engagement - Regulatory agencies should work closely with local governments' trusted sources to ensure that regulatory requirements and other vital information is broadly disseminated.	Management Board	In-progress.
2a	Tools and Resources - Recommend an evaluation of the nature, sufficiency and scope of technical assistance resources and program available to local governments be conducted to establish new, re-tool existing, or expand state and/or federal programs to achieve greater effectiveness in WIP implementation.	Management Board, WQ GIT (Ag Workgroup, Stormwater Workgroup)	The final report from the September 2018 local government forum will be released at the end of April 2019.
2b	Tools and Resources - Encourage Executive Council members to participate in LGAC's September 2018 Local Government Forum which will focus on filling gaps at the local level.	Management Board	Complete
3a	Workforce Development - Jurisdictions should support programs to train targeted groups, including offenders, veterans and other disadvantaged populations, to perform	Management Board, Diversity Workgroup	In-progress. This topic will be the theme for the September 2019 local government forum.

	<p>such functions as installing and maintaining green infrastructure.</p> <p><i>NOTE: LGAC members recommend editing this request to read, "offer opportunities for training to all".</i></p>		
3b	<p>Workforce Development</p> <ul style="list-style-type: none"> - Consider a student loan forgiveness program for people who choose to work in the public sector. 	Management Board	In-progress. This topic will be the theme for the September 2019 local government forum.

Scientific & Technical Advisory Committee

	Committee Recommendation	Lead for Responding	Status
1a	Climate Change - Consider effects of climate change on water quality and ecosystem health and ensure restoration successes continue as we move forward.	Climate Workgroup, WQGIT, STAR and STAC	In-progress. Being addressed through STAC-sponsored science synthesis activity.
1b	Climate Change - Support better understanding, predictive tools and adaptive approaches in order to respond effectively to existing and future climate-related threats.	STAC and STAR	In-progress. Being addressed through STAC-sponsored science synthesis activity.
