The Sustainable Fisheries Goal Implementation Team (Fisheries GIT) continues to provide a forum for connecting science and policy across jurisdictions and the Chesapeake Bay ecosystem. The diverse team meets biannually in June and December.

This December 2016 meeting will focus primarily on oyster restoration progress (Day 1) and updates/discussion on blue crab, forage, and fish habitat (Day Two). These topics represent the Fisheries GIT's progress towards the 2016-2017 Sustainable Fisheries Workplans supporting the [2014 Watershed Agreement](#).
