

# Evolving STAR to Support the Goal Teams and Management Strategies

Scott Phillips, Peter Tango, Bill Dennison, and  
Mark Bennett

# Evolving STAR

- Support Goal Teams and new Agreement
- Enhance collaboration of science activities
  - Monitoring, modeling, analysis, explain change
  - Collaborate with GITs and STAC to increase providers

# Science Collaboration

## CHESAPEAKE SCIENCE SUPPORT

STAR

ADAPTIVE MANAGEMENT FOR  
THE CHESAPEAKE BAY PROGRAM  
(CBP, 2011)

STAC

Guidance  
and  
Review

Providers

# Roles of STAC and STAR

## STAC

- Adaptive management process
- Link to the scientific community
- Provide guidance and review

## STAR

- Collaborate with GITs to address STAC guidance
- Work with GITs to identify additional science providers
- Address cross-cutting issues and needs

# Revised STAR Functions

- Monitoring
- Data integrity
- Status and trends
- Explain ecosystem change
- Modeling
- Climate change
- Synthesize and communicate
- Information management and GIS support
- Workgroups/teams address each item

## ADAPTIVE MANAGEMENT FOR THE CHESAPEAKE BAY PROGRAM (CBP, 2011)

# Short-term actions

- Revise WGs
- Enhance collaboration
- Interaction with STAC
- Science coordination
- Expand membership
- Refine meetings
- Name
