

Principals' Staff Committee Meeting
December 11, 2014
Actions and Decisions

Management Strategy Development

- Action: Agreed that CBP communications team should develop an over-arching summary for the management strategies to explain what they are and how they relate to the new Watershed Agreement. **A Chesapeake Watershed 101 document has been developed and executive summaries for the management strategies have been drafted for MB review.**
- Decision: Agreed to delay the due date for the management strategy workplans for up to six months after the release of the management strategies. **Workplans are due Dec. 16, 2015**
- Action: An overview of the refreshed ChesapeakeStat website should be provided to the Management Board at its next meeting. **Completed 2-12-15.**

TMDL Mid-point Assessment

- Decision: The PSC approved the decision leads for the mid-point assessment priorities.
- Decision: The PSC approval of the Water Quality Goal Team's Mid-Point Assessment detailed schedule, including outcomes from the Water Quality Goal Implementation Team's October face-to-face meeting.
- Action: The PSC requested that CBP staff explore the financial costs and legal issues related to "Incorporating local land use information into Phase 6 modeling tools" and to provide a status update a future PSC meeting.
