

TOGI

Targeted Outreach For Green Infrastructure In Vulnerable Areas

3/24/2022 STAR presentation

Meet Your Presenters

Briana Yancy
Environmental Management Staffer
Chesapeake Research Consortium
yancy.briana@epa.gov

Chris Guy
Habitat GIT Coordinator
USFWS
chris_guy@fws.gov

What is TOGI

Targeted **O**utreach for **G**reen **I**nfrastructure In
Vulnerable Areas

Listening Sessions

**Green Infrastructure
Workshop**

Why green infrastructure?

- Community Benefits
- Environmental Benefits

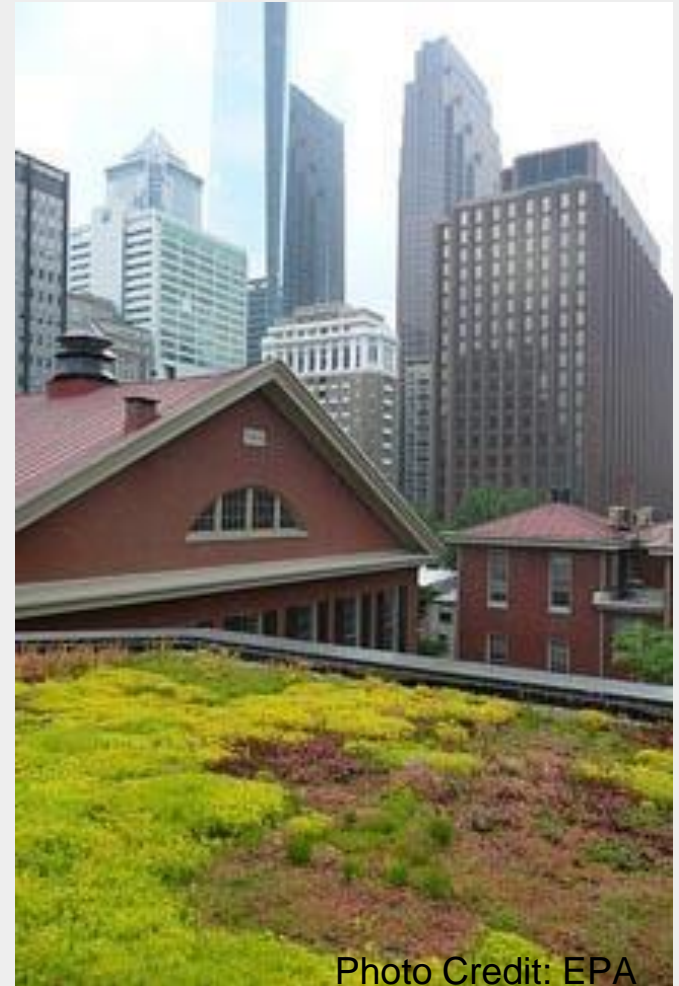

Photo Credit: EPA

“Traditional infrastructure projects perform best on its first day and begin to deteriorate over time. Green infrastructure worst performance is on its first day but it continues to improve over time.

**-- Wendy Webber Regional
Director USFWS**

Why Targeted?

Equipping local decision makers in **underserved and underrepresented communities** with green infrastructure options tailored to provide co-benefits.

Community Selection

Tier 1 Layers

- Sea Level Rise
- Flood Hazard
- 2019 Percent Low-income
- 2019 Percent Minority
- Aquatic Core Habitat Networks
- Terrestrial and Wetland Core-Connector Network
- USFWS National Wetlands Inventory

Tier 2 Layers

- Marsh Migration Zones
- Wastewater Discharge
- SAV abundance
- Brook Trout Catchment
- Brook Trout Probability of Occurrence
- Protected Lands 2018

Cambridge, MD

Community Priorities

- Community Garden
 - Safety
- Place to mourn loved ones
 - Recreation

Williamsport, VA

Community Priorities

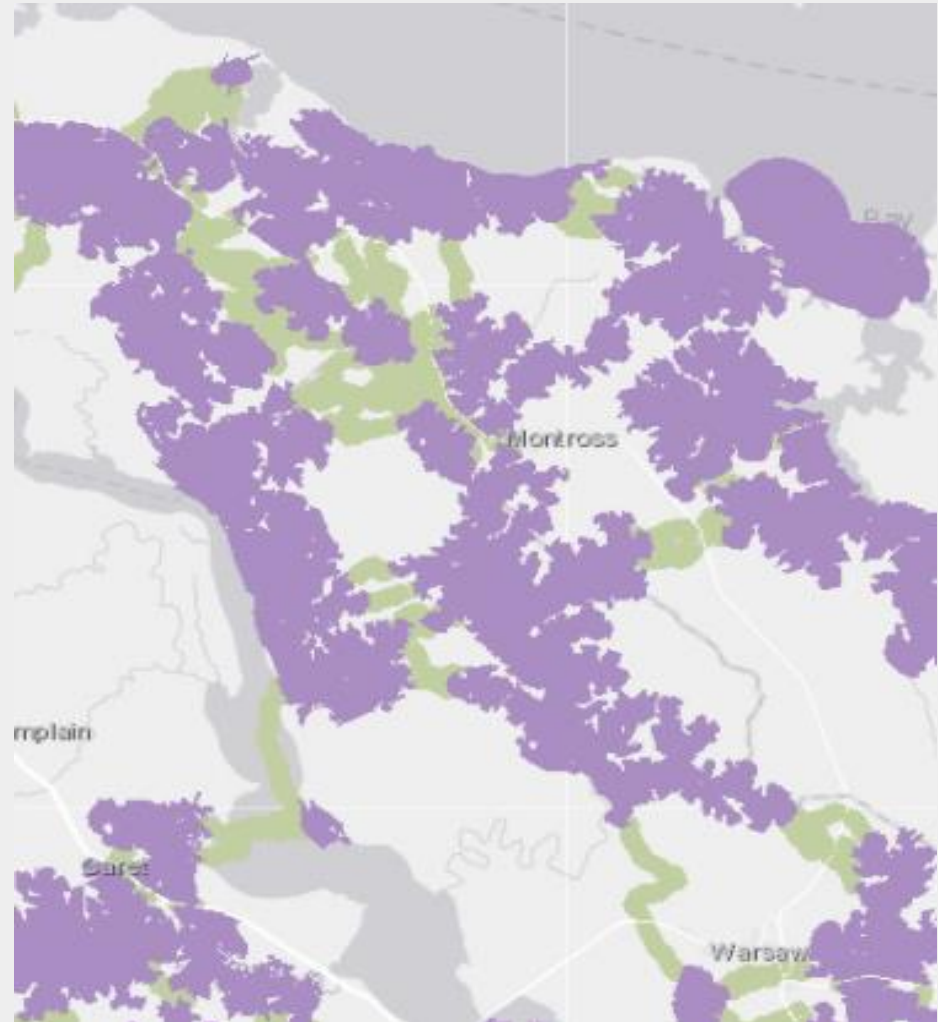

- Expand Community Garden
- Pedestrian access & safety
- Multi-use Field
- Stormwater Improvements
- Increased Street Trees

Middle Peninsula VA*

Community Priorities

- Supporting Tribes
- Stream Restoration
- Living Shoreline

The End

Or is it?

Cambridge, MD

- **Involve community partners early and often**
- **How to 'green' traditional infrastructure**

Williamsport, VA

- **Community Champions**
- **Consistent direct outreach**
- **City important stakeholder**

Middle Peninsula VA*

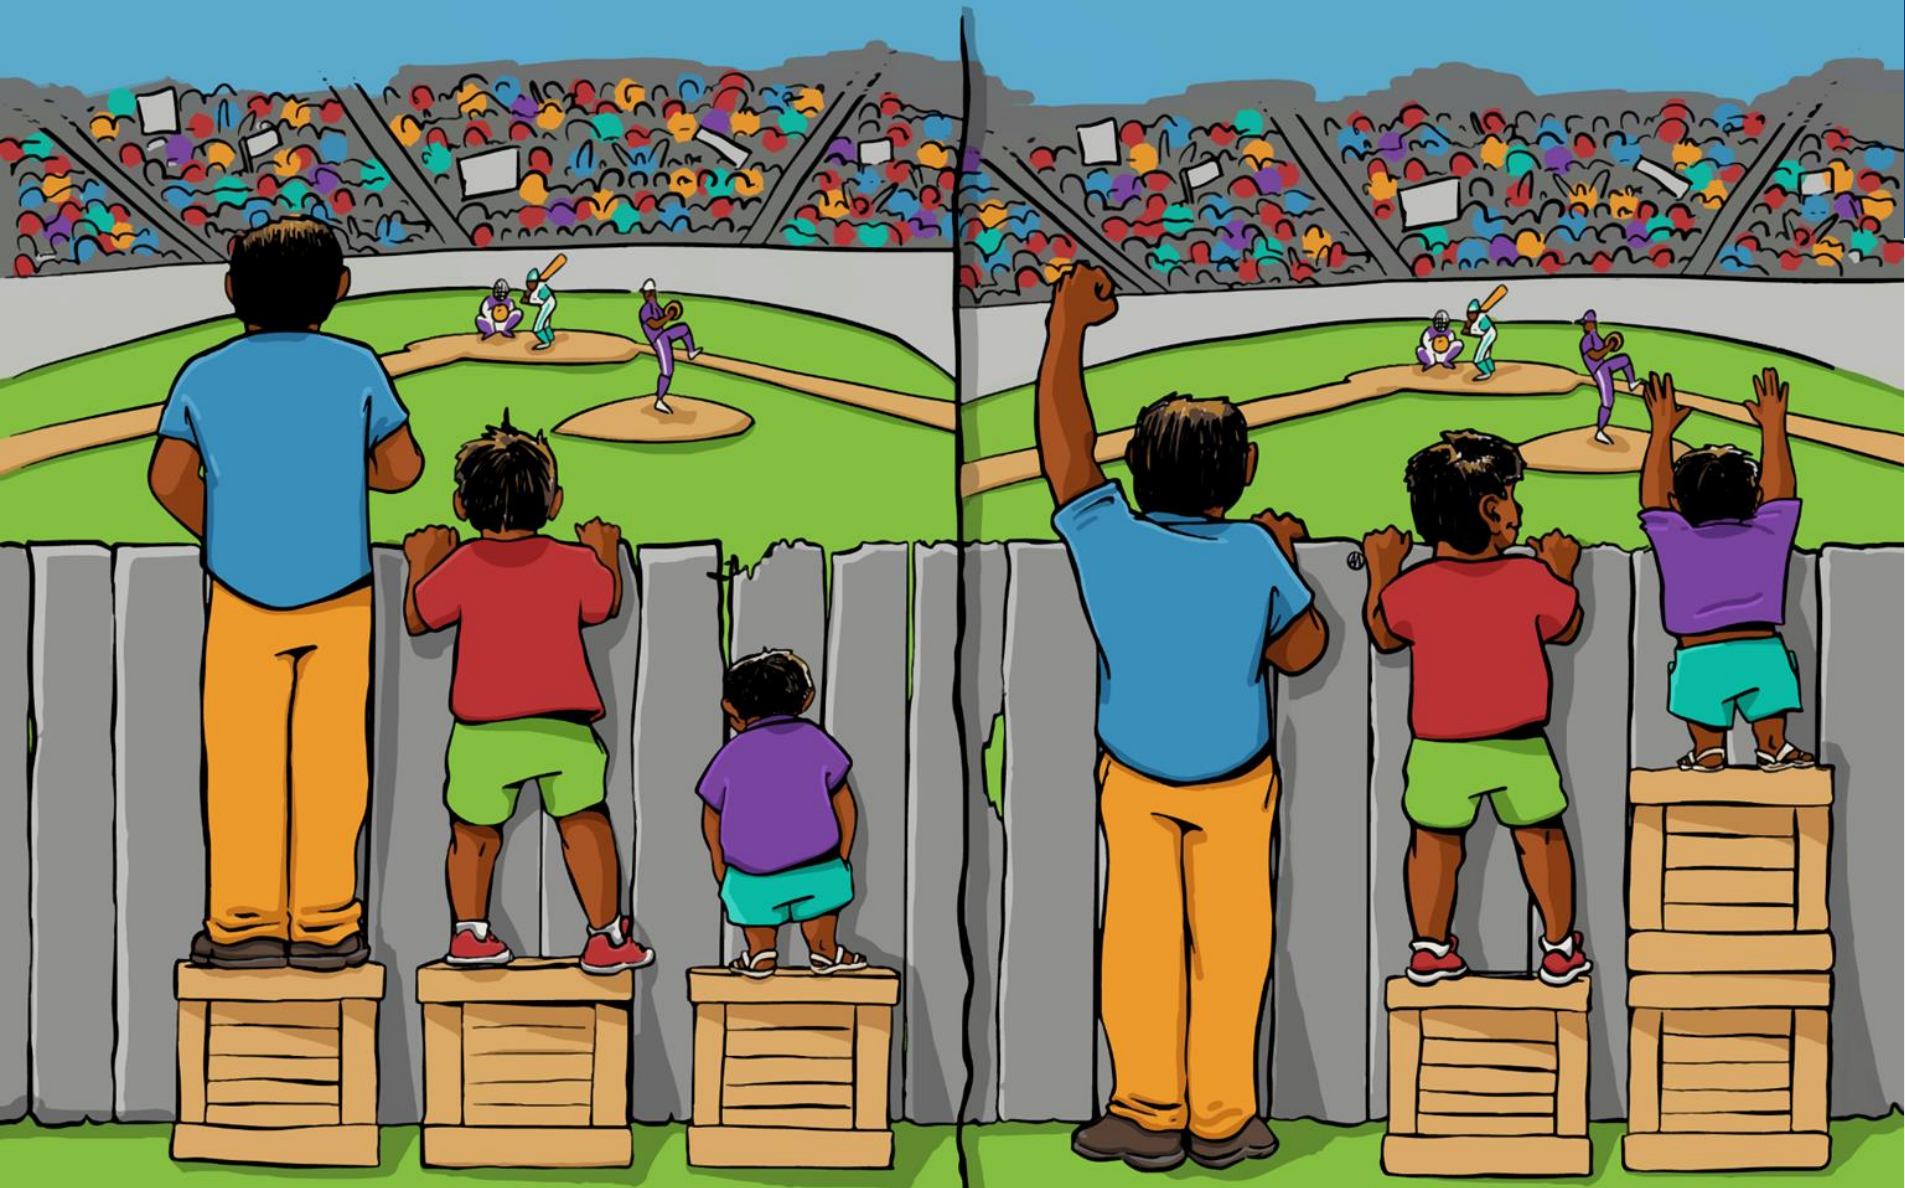

- Building Trust
- Ground Truthing
- Treat communities as individuals

Upper Mattaponi, VA

Mattaponi, VA

EQUALITY

EQUITY

What Did it Take

- 4 steering committees (~ 50 people)
- Additional \$20,000
- CBP Partner commitment above and beyond what was anticipated

Key Takeaways

- Takes more time, resources, technical assistance than expected to make meaningful relationships and create impactful projects
- Vision was too short sighted (really needed funding to support grant writing, implementation and stipends)
- Not a box to be checked each community is different & it's an individual and organizational continuous commitment to others
- Intent doesn't matter as much as impact

Questions?
