- 1:40-2:00 Oyster impacts – Mike Naylor/Fisheries GIT (NOAA) offered an update
- 2:00-2:20 Late season SAV response – Ken Moore/Bob Orth
- 2:20-2:45 Storm response: Review of response effort; Community input on improvements to storm response coordination. (Tango)
- 2:45-3:30 Discussion: Product development, develop late autumn Synthesis Workshop. Identify collaborations for synthesis topics from this meeting?

# Questions to consider

- Schedule ok?
- Shorter presentations and bring in other community members?
- Others we should invite to this first session as listening public for potential collaborations for the fall
