

Trading and Offsets Workgroup

Conference Call

Wednesday October 17, 2012

10:00 AM to 12:00 PM

Conference Line- 866.299.3188 code- 410.267.5731

Adobe Connect- <https://epa.connectsolutions.com/towg/>

10:00 AM- **Welcome and introductions** Branosky

10:10 AM- **Update on EPA Technical Memoranda** Brown

10:15 AM- **Review of programs' design elements to address uncertainty** Branosky

- Uncertainty ratios, other ratios, and other design elements address uncertainty in trading programs. Evan will review the design elements that address uncertainty in each jurisdiction's program.

10:35 AM- **Uncertainty in the Bay model BMP efficiencies** Simpson

- Of the sources of uncertainty in trading programs, those in the BMP efficiencies are perhaps the most important. They are also the least understood. Tom will review the sources of uncertainty in BMP efficiencies and any assumptions to account for them.

11:35 AM- **Updates** TOWG members

11:50 AM- **Next steps on LWQ, uncertainty discussions** Branosky
