

Chesapeake Bay Program
A Watershed Partnership

Urban Stormwater Workgroup Meeting

Tuesday, July 26, 2016

10:00 AM to 3:00 PM

Call-in Number: 866-299-3188; **code:** 267-5715

Adobe Connect: <http://epawebconferencing.acms.com/uswg/>

10:00 Welcome and Review of June Meeting Minutes. Norm Goulet, NVRC Attach A

10:05 Announcements

- MTD Update, N. Goulet

10:15 Consideration of Floating Treatment Wetland Recommendations. Tom Schueler, CSN, Attach B & C

Tom will present the key findings and consensus recommendations from this expert panel that defined the nutrient and sediment removal performance associated with Floating Treatment Wetland design applications. There will be time for questions and discussion.

ACTION ITEM: The workgroup will be asked to approve the report at this time.

11:15 Next steps for Impervious Cover Disconnect Recommendations. Bill Stack & Reid Christianson, CWP, Attach D, E & F

Bill and Reid will review the key findings and consensus recommendations from this expert panel that defined and developed nutrient and sediment load reductions from disconnecting existing impervious areas. They will provide an overview of comments received from the partnership and update the workgroup on next steps in response to comments from MDE. There will be time for questions and discussion.

12:15 LUNCH BREAK

1:00 Overview of the Urban Tree Canopy Recommendations. Jeremy Hanson, Virginia Tech., Attach G, H, I & J

Jeremy will provide a brief overview of the recommendations of the Urban Tree Canopy review panel and facilitate a discussion with workgroup members to receive their input on the panel's recommendations and the proposal from the Forestry Workgroup.

1:45 Everyone, Everywhere, Doing Everything (E3) Scenario Discussion. Norm Goulet, NVRC Attach K

The E3 Scenario is an estimate of applying management actions to the fullest possible extent. Norm will facilitate a workgroup discussion on the draft E3 Scenario. **Workgroup members will be asked to bring their comments and suggested revisions to the meeting.** Norm will brief the workgroup on the process going forward.

2:00 Quantification of BMP Impacts on CBP Management Strategies and Additional Goals. Mark Sievers, TetraTech, Attach L

Tetra Tech is working with the Chesapeake Bay Trust to quantify the effects of BMPs on the management strategies and additional goals to better enable jurisdictions, localities, and others to assess the impact (positive or negative) of their watershed implementation plans on all management strategies.

2:30 Construction Reporting for Phase 6. Matt Johnston, UMD, CBPO, Attach M
Matt will brief the workgroup on new reporting requirements of construction acreage for Phase 6 of the model.

3:00 September USWG Agenda Item Planning. N. Goulet **AUGUST CANCELLED**

3:15 Adjourn

List of Attachments:

- Attachment A: June 2016 USWG Meeting Minutes
- Attachment B: Recommendations of the Expert Panel to Define Removal Rates for Floating Treatment Wetlands in Existing Wet Ponds
- Attachment C: Response to Comments on Floating Treatment Wetlands Expert Panel Report
- Attachment D: Impervious Disconnection Expert Panel Recommendations
- Attachment E: Comments and responses from initial 30-day comment period for Impervious Disconnection Expert Panel recommendations
- Attachment F: MDE suggested path forward for Impervious Disconnection BMP recommendations
- Attachment G: FWG proposal for second tier Phase 6 Urban Forest Planting BMP
- Attachment H: Recommendations of the Expert Panel to Define BMP Effectiveness for Urban Tree Canopy (track changes version)
- Attachment I: Summary memo of response to comments for Urban Tree Canopy Expert Panel
- Attachment J: Comments and responses from initial 30-day comment period for Urban Tree Canopy Expert Panel recommendations
- Attachment K: Draft E3 Scenario
- Attachment L: Quantification of BMP Impacts on CBP Management Strategies and Additional Goals
- Attachment M: Construction Reporting for Phase 6
