

Monique Dykman has worked as the MS4 Environmental Specialist at Londonderry Township since 2019. In this role, she works to educate the public on urban stormwater runoff, while implementing practices to reduce the effects of stormwater. Monique managed the implementation of a .98-mile floodplain restoration, with 15.2 acres of floodplain restored to historic conditions, by removing 125,000 cubic yards of legacy sediment.

Monique also participates in the Master Watershed Stewards program through Penn State Extension, and is the Secretary of the Tri County Conewago Creek Association.
