

**CHESAPEAKE BAY PROGRAM**  
**WATER QUALITY GOAL IMPLEMENTATION TEAM**

May 29, 2018 ACTIONS AND DECISIONS

Meeting Materials: [Link](#)

Summary of Actions and Decisions:

**Action:** The draft technical directives (agriculture and stormwater sectors) for the Executive Committee will be shared with the WQGIT, AgWG, and USWG for review. Comments are due by COB June 13 for presentation to the Management Board June 14. Comments will be incorporated for review by the PSC July 9.

**Action:** The jurisdictions will have 3 weeks from June 4 to review and approve the 2017 Progress scenario with the latitude-longitude fix. All comments and review will be due by COB June 25.

**Decision/Action:** Deployment of final CAST will be deferred to June 6, and the WWTWG will convene on June 5 to make a final recommendation on an approach to correct septic system data for VA and DC in Phase 6 CAST. After the septic data fix on June 5 and deployment of final CAST on June 6, no changes to CAST will be incorporated until the next planning period on October 2019. Between now and October 2019, the WWTWG and LUWG will investigate approaches to represent non-res septic systems in the Watershed Model in the next milestone period.
