

# How Water Quality Scenarios are Created for Input to the Bay Model

*An Informational Seminar/Webinar on  
Chesapeake Bay Program's "Scenario Builder" Tool  
August/September 2011 / Location: Various*

*Offered to inform developers of Phase II WIPs such as:  
**State agencies ~ Managers ~ Local Planners ~ Local Government  
Conservation Districts ~ Watershed Organizations ~ Stakeholders***

Seminar leaders Jeff Sweeney (EPA) and Chris Brosch of (U.Md.) will:

- Provide an overview of the system of Bay models;
- Clarify the purpose and role of Scenario Builder and its main assumptions;
- Discuss the basics of crediting BMPs, which involves the sequencing of credit, modes of pollution reduction and structure of the output; and,
- Explain data sources and assumptions specific to agriculture, stormwater and onsite septic systems in technical detail.

*A Q&A time will be offered at the conclusion of each workshop.*
