

# Memorandum

**To:** Water Quality Goal Implementation Team  
**CC:** Watershed Technical Workgroup; Urban Storm water Workgroup  
**From:** Christopher Brosch, Chair and Coordinator Watershed Technical Workgroup  
**Date:** 4/4/2011  
**Re:** Storm water by Era BMP

---

## **BMP Approved**

On Monday, March 28<sup>th</sup>, a Watershed Technical Workgroup meeting was convened to have a collective discussion on the provisionally approved Storm water by Era BMP. After a unanimous vote with two abstentions, several tracking and reporting amendments to the original proposal were made by the Watershed Technical Workgroup to finally approve the BMP.

The amendments to the original proposal to the WQGIT include requirements that progress from jurisdictions reporting in NEIEN:

1. Be geo-referenced;
2. Based on actual reported acreage (not estimated or presumed);
3. Account for replaced retrofits.

With these amendments, the WTWG wishes to forward approval on to the WQGIT for their consideration.
