

2024 SRS Factors and Submersion Series Topics

WQGIT Meeting April 22, 2024

Factors influencing progress of the 2025 WIP outcome

1. BMP implementation (tracking, reporting, verifying)
2. Funding and capacity
3. Communication and coordination
4. CAST & other model updates
5. Water quality monitoring
6. Using benefits to multiple outcomes as a catalyst
7. Climate change

Should these factors be included in our 2024 – 2025 SRS materials?

Are there additional factors that need to be included? Excluded?
