

An underwater photograph showing a dense growth of green, filamentous algae in clear blue water. The algae are tangled and appear to be growing on a submerged surface. The water is bright blue, and the lighting creates a shimmering effect on the algae.

CAST-2023 Release Schedule

Water Quality GIT: October 23, 2023

Decisions

Oct 17, 2023: [Urban Stormwater Workgroup](#) (USWG) reviewed correction to the ratio of regulated to unregulated developed acres for Fairfax, Fairfax City, Falls Church City, Loudoun, and Harrisonburg City.

These 5 VA counties' developed land use is being updated and will be incorporated.

Oct 19, 2023: [Agriculture Workgroup](#) (AgWG) reached consensus on the global change in manure eligibility and timing so that both manure and inorganic fertilizer are eligible for each application.

The Chesapeake Bay Program Office (CBPO) Development Team is making changes to the CAST processor to accommodate the AgWG decision. This will be ready by November 2, 2023.
