

Riparian Forest Buffer 2-year Workplan

Steps Leading Up to this Workplan

- In 2015, the PSC appointed a RFB lead in each state
- This step came out of the RFB Initiative of 2014-2015 which helped identify needed actions that were also used in the workplan
- Because RFB programs vary by state, each state was asked to draw up their own workplan
- The CBP composite RFB workplan draws heavily from those state workplans
- It includes the more 'key' actions

Riparian Forest Buffer 2-year Workplan (con't)

Nine Focus Areas for Improvement/Action

- 1) Leadership
- 2) Program Enhancements
- 3) Technical Assistance
- 4) Outreach and New Enrollment
- 5) Establishment, Maintenance and Verification
- 6) Re-enrollment
- 7) Targeting
- 8) Conservation
- 9) Non-agricultural buffers
