

**Chesapeake Bay Program  
Watershed Technical Workgroup (WTWG)  
Conference call**

Thursday, June 1, 2017

10:00 AM to 12:00 PM

**Call-in number:** 866.299.3188 **Code:** 267-5715

**Adobe Connect:** <http://epawebconferencing.acms.com/wtwg/>

**Calendar Page:** <http://www.chesapeakebay.net/calendar/event/24821/>

**Agenda**

10:00 AM - Introductions and Approval of May Minutes - Ted Tesler, PADEP

10:05 AM – BMP Informative Document for General Audience—Jeremy Hanson (VT)

Jeremy will review comments received from the WTWG on the draft mock-up of the BMP guide, and present an updated draft based on comments from the WTWG, WQGIT, and other WQGIT workgroups.

10:35 AM – Nutrient Reduction Credits for Shoreline Management BMPs –Matt Johnston, UMD

The workgroup will address concerns raised regarding protocol 1 of the Shoreline Management BMP. At the time of publication of the expert panel report in 2015, Protocol 1 was approved only for TSS pending an evaluation of the availability/reactivity of TP and TN associated with shoreline sediments and the impact that nutrient crediting might have on TMDL accounting at the land-river segment (see appendix C). This evaluation has been completed and will be brought before the WTWG for review and recommendation to the WQGIT. In order for this credit to be available for phase III WIP planning and future progress reporting in Phase 6, the credit should be in place no later than September 1, 2017.

11:05 AM – Updates on Phase 6 Model Review Process

Phase 6 model documentation will be available June 1<sup>st</sup>; workgroup members are reminded to submit comments regarding BMPs during the fatal flaw review period. Comments should be received by July 15 to ensure adequate turnaround prior to the end of the fatal flaw review on July 31.

11:15 AM – Adjourn
