Which topics from our Logic & Action Plan are most critical for a dedicated meeting or webinar in 2023?

1st — Current state of technical assistance needs to implement WIPs & role of partnership to address needs

2nd — Innovations that work or are most-promising to accelerate implementation (pay for performance/outcome, others)

3rd — Monitoring: Factors affecting trends and what we can learn about response to management practices

4th — Capacity building: best practices for recruiting, training and retaining staff from diverse communities to educate stakeholders/public, implement or maintain BMPs

5th — Climate: what we've learned and what we still need to learn about the changing climate's impact on BMPs and restoration

6th — Multiple benefits: Examples of partners using ecosystem services or non-water-quality benefits to drive BMP selection

7th — Monitoring: examples how to communicate and leverage to support and improve water quality

8th — Something else (use the chat to tell us what you mean)

What kind of format do you find the most useful?

1st	Webinar, with breakouts
2nd	Webinar, with no breakouts
3rd	Webcast (only presenters speak, answer Q&A from chat)
4th	half-day in-person forum (commuter only, lunch on your own)
5th	Recordings of live webinars/ webcasts
6th	Something else (use the chat to tell us what you mean)
