

2020 Progress Submissions

1. Describe the process for collecting data from local governments/organizations. Do you have any concerns about data completeness or quality?
2. USGS again provided data from NRCS and FSA. What process was used to de-duplicate those data from other agricultural conservation practice data?
3. There was a stronger push for federal agencies to report to jurisdictions this year. Did you receive usable, complete data from federal agencies?
4. When pulling together the disparate data sources into your state tracking system, were there any bumps in the road? How would you like your state tracking system to be different?
5. Did NEIEN submissions work smoothly? Did you get the support you needed?
6. QAPPs updates are due as Jeff Sweeney and Vanessa Van Note begin verification. Are updates needed?
