

Fisheries GIT Member Updates

The Sustainable Fisheries Goal Implementation Team (SFGIT) will provide team members with an opportunity to share relevant fisheries or living resources projects/updates from your organization that are not on the meeting agenda with the full SFGIT on June 2nd of the Full SFGIT meeting in Virginia. These updates lead to great discussions!

Consider submitting an update using the google form below. Please fill out the following information (name, organization, and update description) below by **COB May 27th**. At the meeting, each person will have a chance to speak briefly on the update. If you cannot attend the meeting, GIT staff will present your update to the group.

Name	Organization	Update Description
Kevin Schabow	NOAA Chesapeake Bay Office	Will provide an update on telemetry work in the Chesapeake Bay and throughout the Atlantic Coast including development and use of the Mid-Atlantic Acoustic Telemetry Observation System (MATOS)
Kim Couranz and Howard Townsend	NOAA Chesapeake Bay Office	Review Oyster Restoration Ecosystem Services (ORES) progress and how it contributes to evaluating the ecological value of oyster reefs in the Chesapeake Bay
Laura McKay	Virginia CZM/MARCO/MidA RPB	Mid-Atlantic Ocean Action Plan: fish data, mapping species shifts, OA monitoring; Sturgeon & EMFs Study (a VA CZM grant to VCU)
Dave Blazer	MD DNR	Update on MD DNR Assessment on Oyster Management
Jim Price		Ecological report on striped bass and menhaden
Peyton Robertson	NOAA Chesapeake Bay Office	Oyster Implementation Update
