**Chesapeake Bay Program**

*40 years of science, restoration and partnership*

# EXECUTIVE COUNCIL CHARGE

“

Thus, this Executive Council charges the Principals' Staff Committee (PSC) in recommending a critical path forward that prioritizes and outlines the next steps for meeting the goals and outcomes of the Watershed Agreement leading up to and beyond 2025. The PSC is to report back to the Executive Council at our 2023 annual meeting with recommendations on how to best address and integrate new science and restoration strategies leading up to 2025. **At our 2024 annual meeting, the PSC is to prepare recommendations that continue to address new advances in science and restoration, along with a focus on our partnership for going beyond 2025.**

”

# TWO-PHASED APPROACH

- Step 1 – By EC 2024, Determine the scope and breadth of what will be undertaken to meet the EC Charge and develop a plan to complete that work
  - Use a Steering Committee to develop plan/scope of work for all activities to be undertaken to strengthen Partnership in years ahead
  - Membership based on Management Board
  - Contract support
- Step 2 – Execute the plan after EC 2024.

# GOAL

We will assess where we are and where we want to be in

reaching our shared vision for the Chesapeake Bay and its

watershed; and identify a path forward for the Chesapeake Bay

Program focused on what we do and how we work.

## Where we are

*What have we, as a partnership, accomplished through our current theory of change, based on the Reaching 2025 report, CESR, and other reports and program evaluations?*

## Where we want to be

*How do we define a healthy, sustainable, productive Chesapeake Bay and watershed, responding to climate change and community needs?*

## A path forward

*What is our plan & who will be part of executing the plan? What does this plan mean for the foundational guides of our program?*

## What we do

*What is our approach to the goals and outcomes we have achieved and those we have yet to meet; and to the monitoring and modeling we do to set strategies and measure progress?*

## How we work

*How do we improve our Partnership, Governance, Adaptive Management, Time and Resource Allocation, Public Engagement, Communication to do more, better, faster?*
