

Bus Tour: Clean Water Practices in West Virginia

In a recent progress report to the Environmental Protection Agency, West Virginia reported having met or being on track to meet all of their TMDL goals (nitrogen, phosphorus and sediment reductions) by the 2025 deadline. During a tour of clean water practices in the region, hear from local governments about their secrets to success.

Presenters:

- *Josephine Saikali, Eastern Panhandle Planning and Development Council*
- *Mayor James Gatz, Shepherdstown, West Virginia*
- *Jared Tomlin, Martinsburg, West Virginia*
