1:10 Initial review of 17/18 dataset and survey/process for feedback - Katie Walker, Chesapeake Conservancy (30 min).

Katie will review the 2017/2018 land use/cover and change dataset and discuss the application to structure local review.

1:40 Intro to Accuracy assessment for 17/18 dataset - Jacob Czawltyko, Chesapeake Conservancy (25 min).

Jacob will give a high-level overview of the accuracy assessment for the 2017/2018 land use/cover and change dataset and walk through how the accuracy assessment will be done.

2:05 Timeline/workplan/process of 2021/22 dataset – Katie Walker, Chesapeake Conservancy (30 min).

Katie will review the timeline, work plan and upcoming process for the 2021/2022 dataset.

2:35 Feedback on GIT Funding Proposal: Community Response to Land Use Change – Jake Solyst (25 min).

Jake will give a brief overview of the GIT funding proposal “*Community Response to Land Use Change*” that will be submitted under Land Use Methods and Metrics Outcome. The purpose of this project is to improve how land use/land cover characteristics and trends, and indicators can be communicated so that they are actionable at the local level. The project seeks to better understand how local communities with natural resources at risk, perceive and understand the value and risk to those resources, local land use/land cover trends, and how this information may relate to other local concerns and issues.

3:00 Adjourn

\*Abbreviations

GIT = Goal Implementation Team  
LULC = Land Use/Land Cover
