

An Introduction to PFAS Analytic Tools

EPA's PFAS Strategic Roadmap

- In October 2021, EPA released the PFAS Strategic Roadmap, highlighting concrete actions the Agency will take across a range of environmental media and EPA program offices to protect people and the environment from PFAS contamination.
- The Roadmap is guided by three primary goals:
 - **Research:** Investing in research, development, and innovation to incorporate the best-available science into EPA's work.
 - **Restrict:** Working to proactively prevent PFAS from entering air, land, and water at levels that can adversely impact human health and the environment.
 - **Remediate:** Broadening and accelerating the cleanup of PFAS contamination to protect human health and ecological systems.

Goals of the PFAS Analytic Tools

- Develop an integrated resource to understand where PFAS detections are being identified across a wide set of databases.
- Compile as much nationally available data on PFAS as possible into an easy-to-use, automatically refreshed tool.
- Develop standard methods to extract PFAS chemical data from national data systems and develop best practices for regulatory partners that would like to contribute information.
- Support EPA investigations into PFAS contamination and further the collaboration with federal/state/local/tribal partners as noted in the [EPA PFAS Strategic Roadmap \(Link to 2022 Progress Report\)](#) – see p.8).

Development History

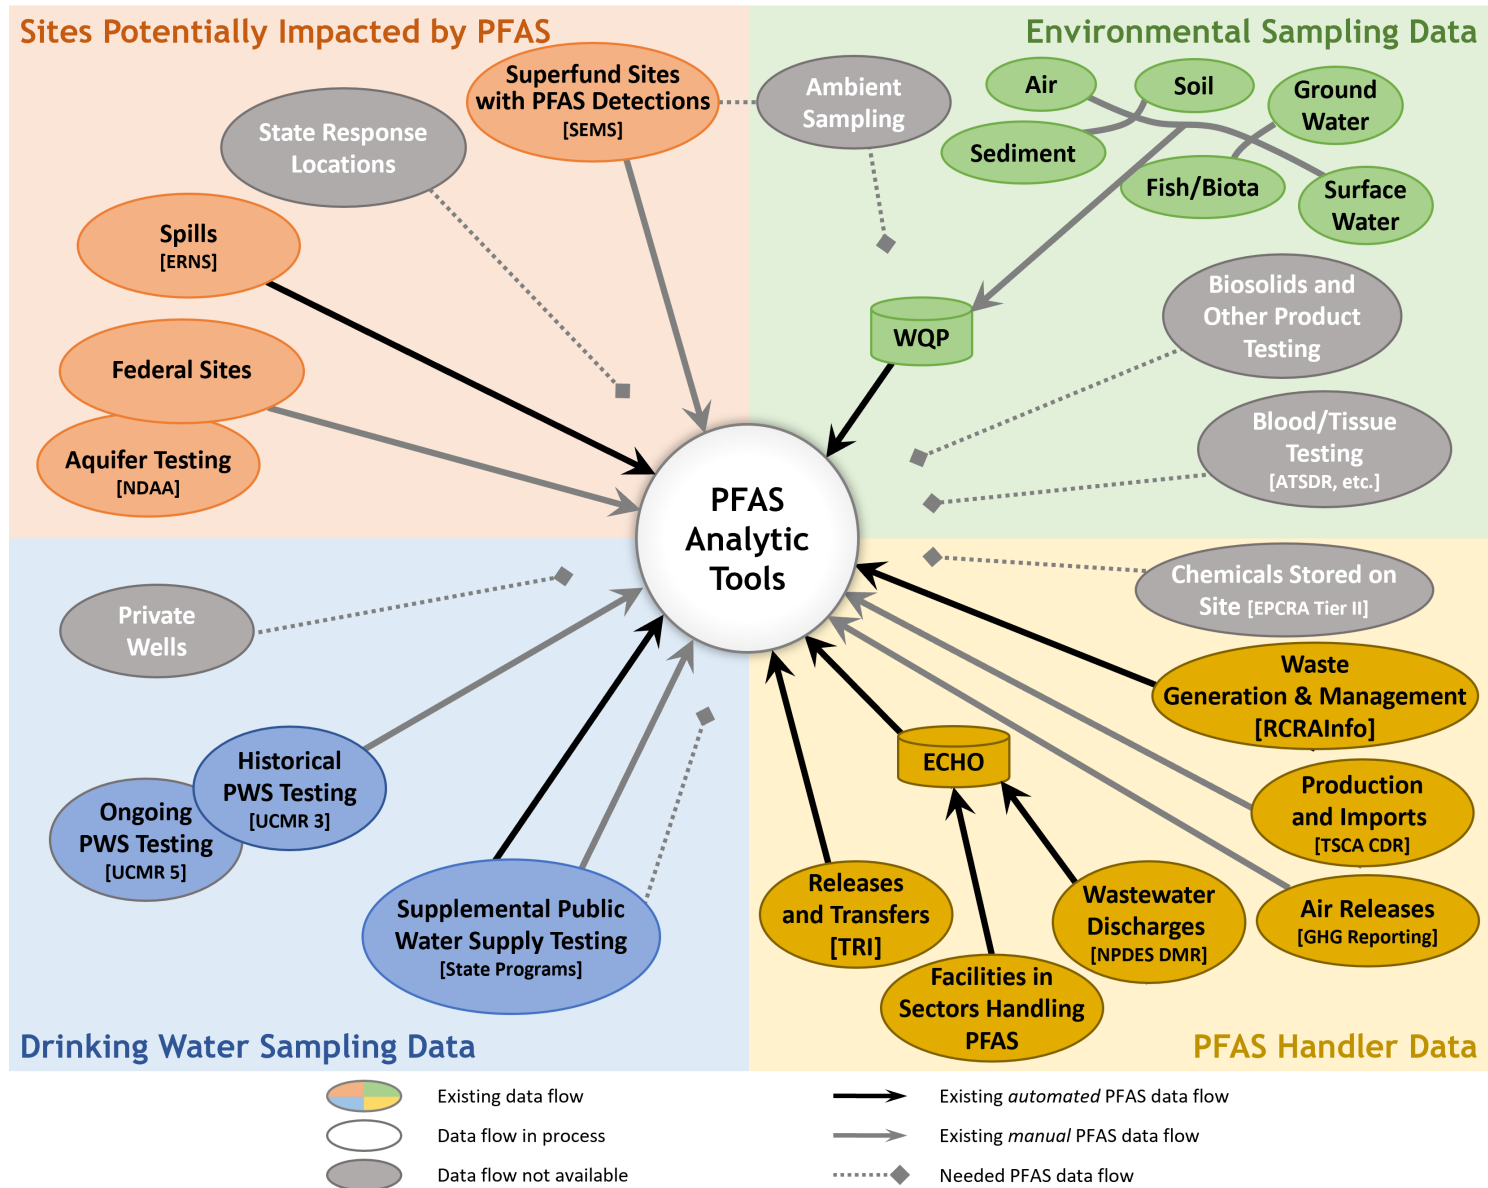

2019 - Version 1.0 released for government-wide use after EPA collaborated with the Environmental Council of the States and 14 participating states. WA, PA, MI, AL, NJ, NH, MN, AZ, CA, ME, OR, VT, AK, MA

2020 – Version 2.0 was released for all federal / state / tribal / local government use.

Presentation to additional State Organizations including Association of other State Organizations (ACWA, ASTSWMO, NACAA, ASDWA)

2022 – EPA released the PFAS Analytic Tools Data Sets (Excel Downloads) within the public-facing ECHO website.

2023 - EPA released the PFAS Analytic Tools to the public.
