

Key Findings of the Report

- Monitoring is critical to assess progress towards meeting goals and outcomes of the 2014 Watershed Agreement.
- Monitoring is insufficient for many CBP outcomes.
- Opportunities for enhancing the networks exist but funding is a challenge.

Summary of funding recommendations:

\$13M base funds for Current Core networks

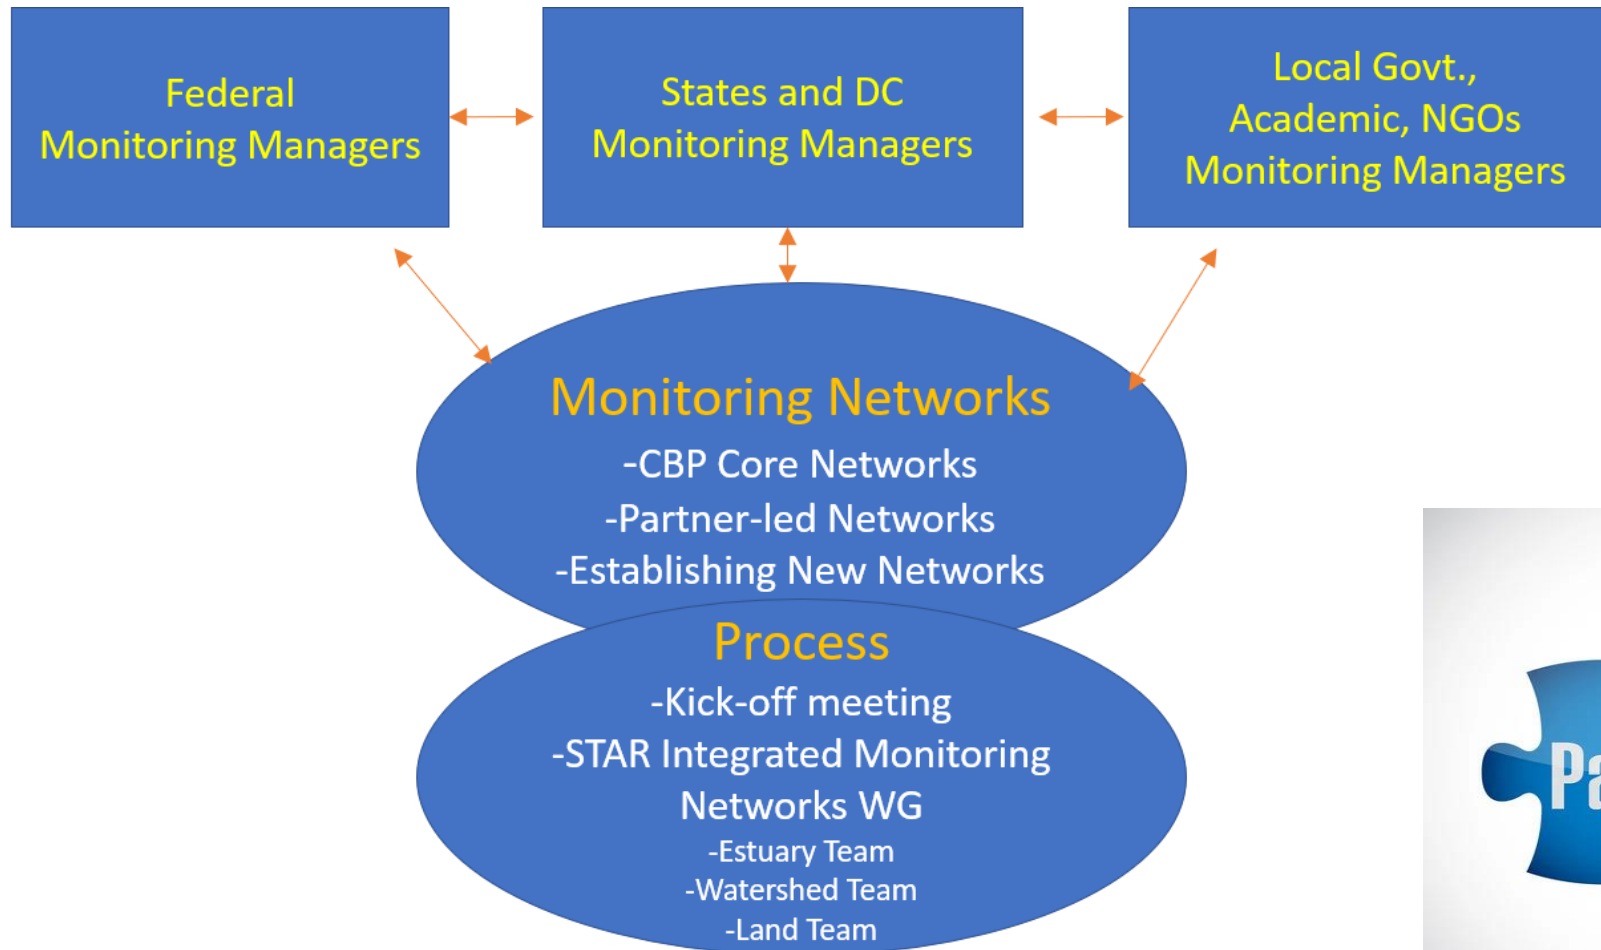

\$5.4M a year in new investments identified for priority needs
--One time capital costs
--Operation and maintenance

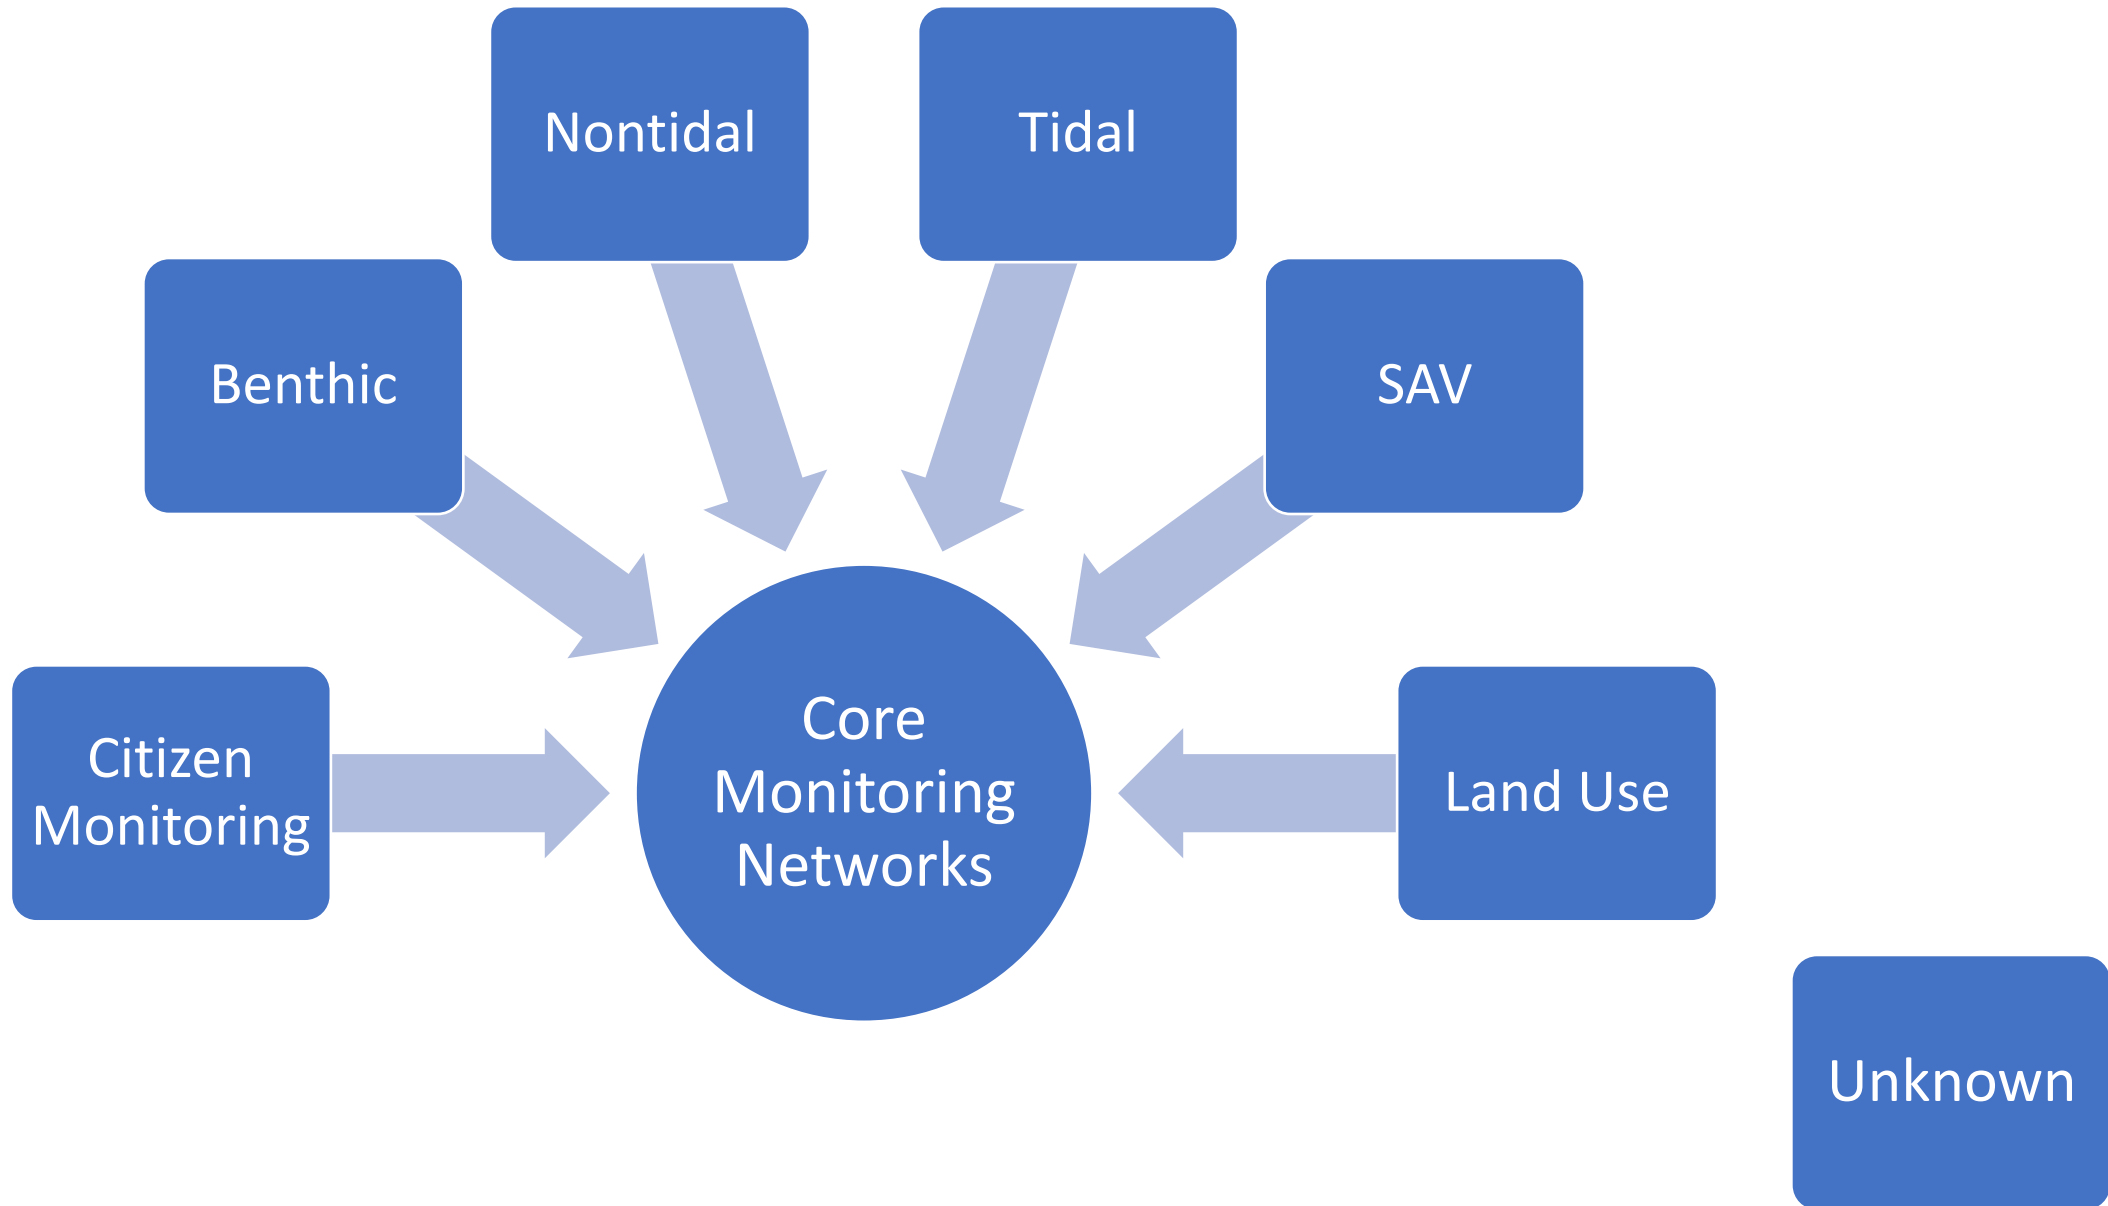

Additional partnership-led networks need to be maintained

Future monitoring needs for some outcomes are yet to be determined (TBD)

Process moving forward for sustaining and enhancing networks

Existing Monitoring Funding

Monitoring Funding with Infrastructure
