

Poultry Data Update

3/14/2025

Didn't we talk about this?

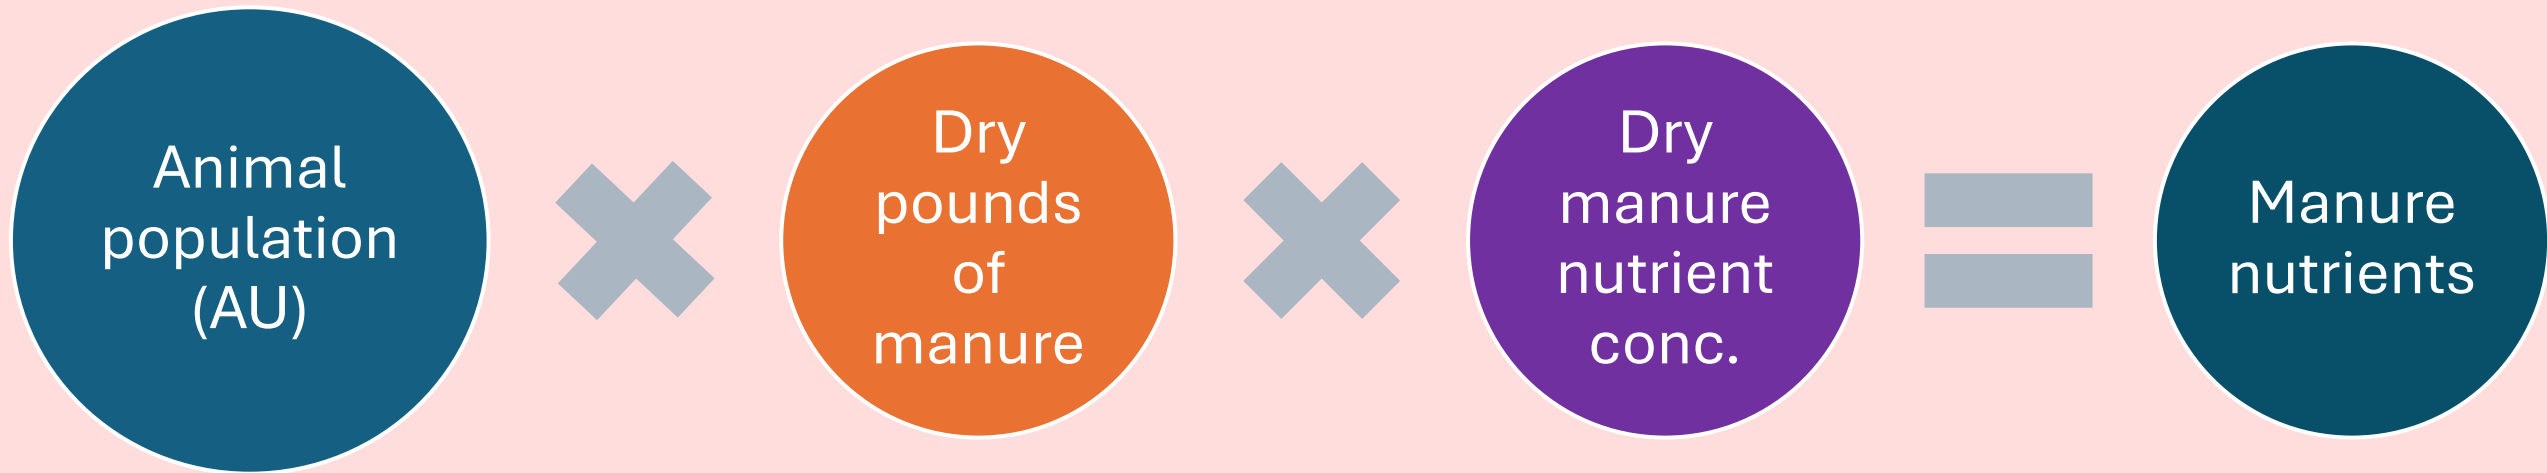

Yes! October 2024

US Egg and Poultry Association

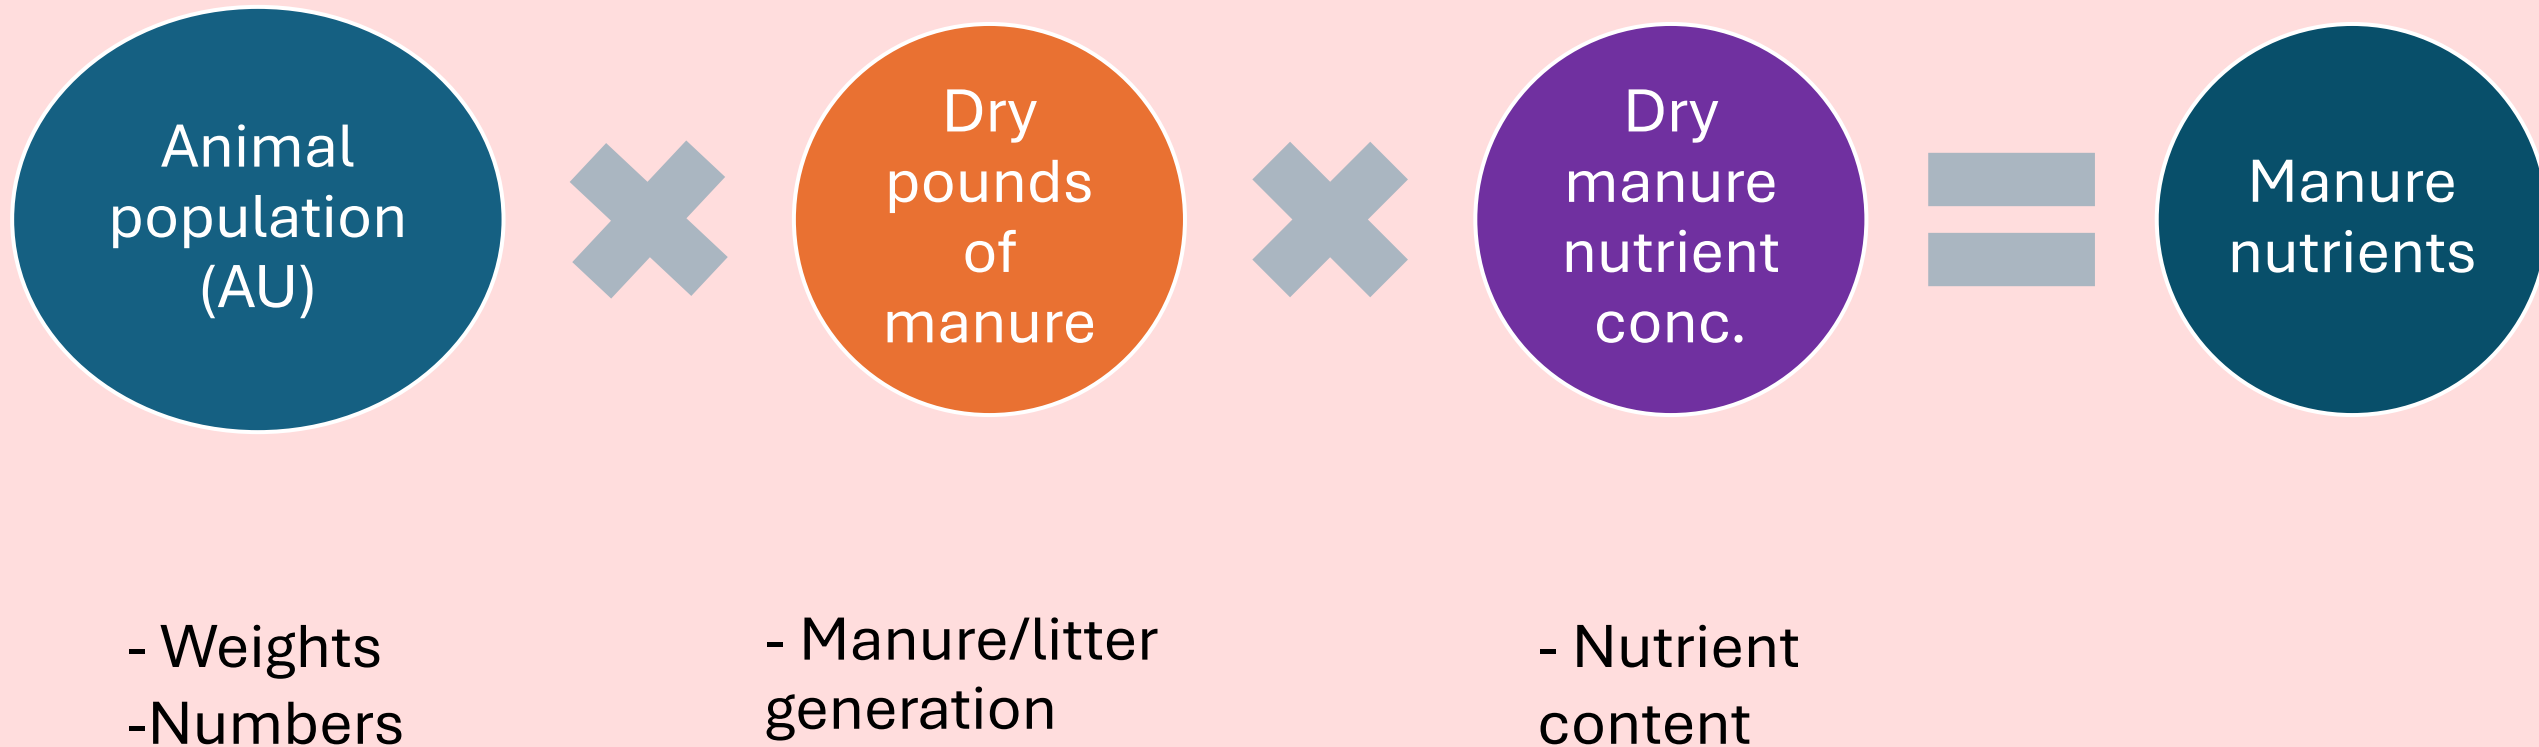

Multiple types of poultry

- Broilers
- Layers
- Pullets
- Etc

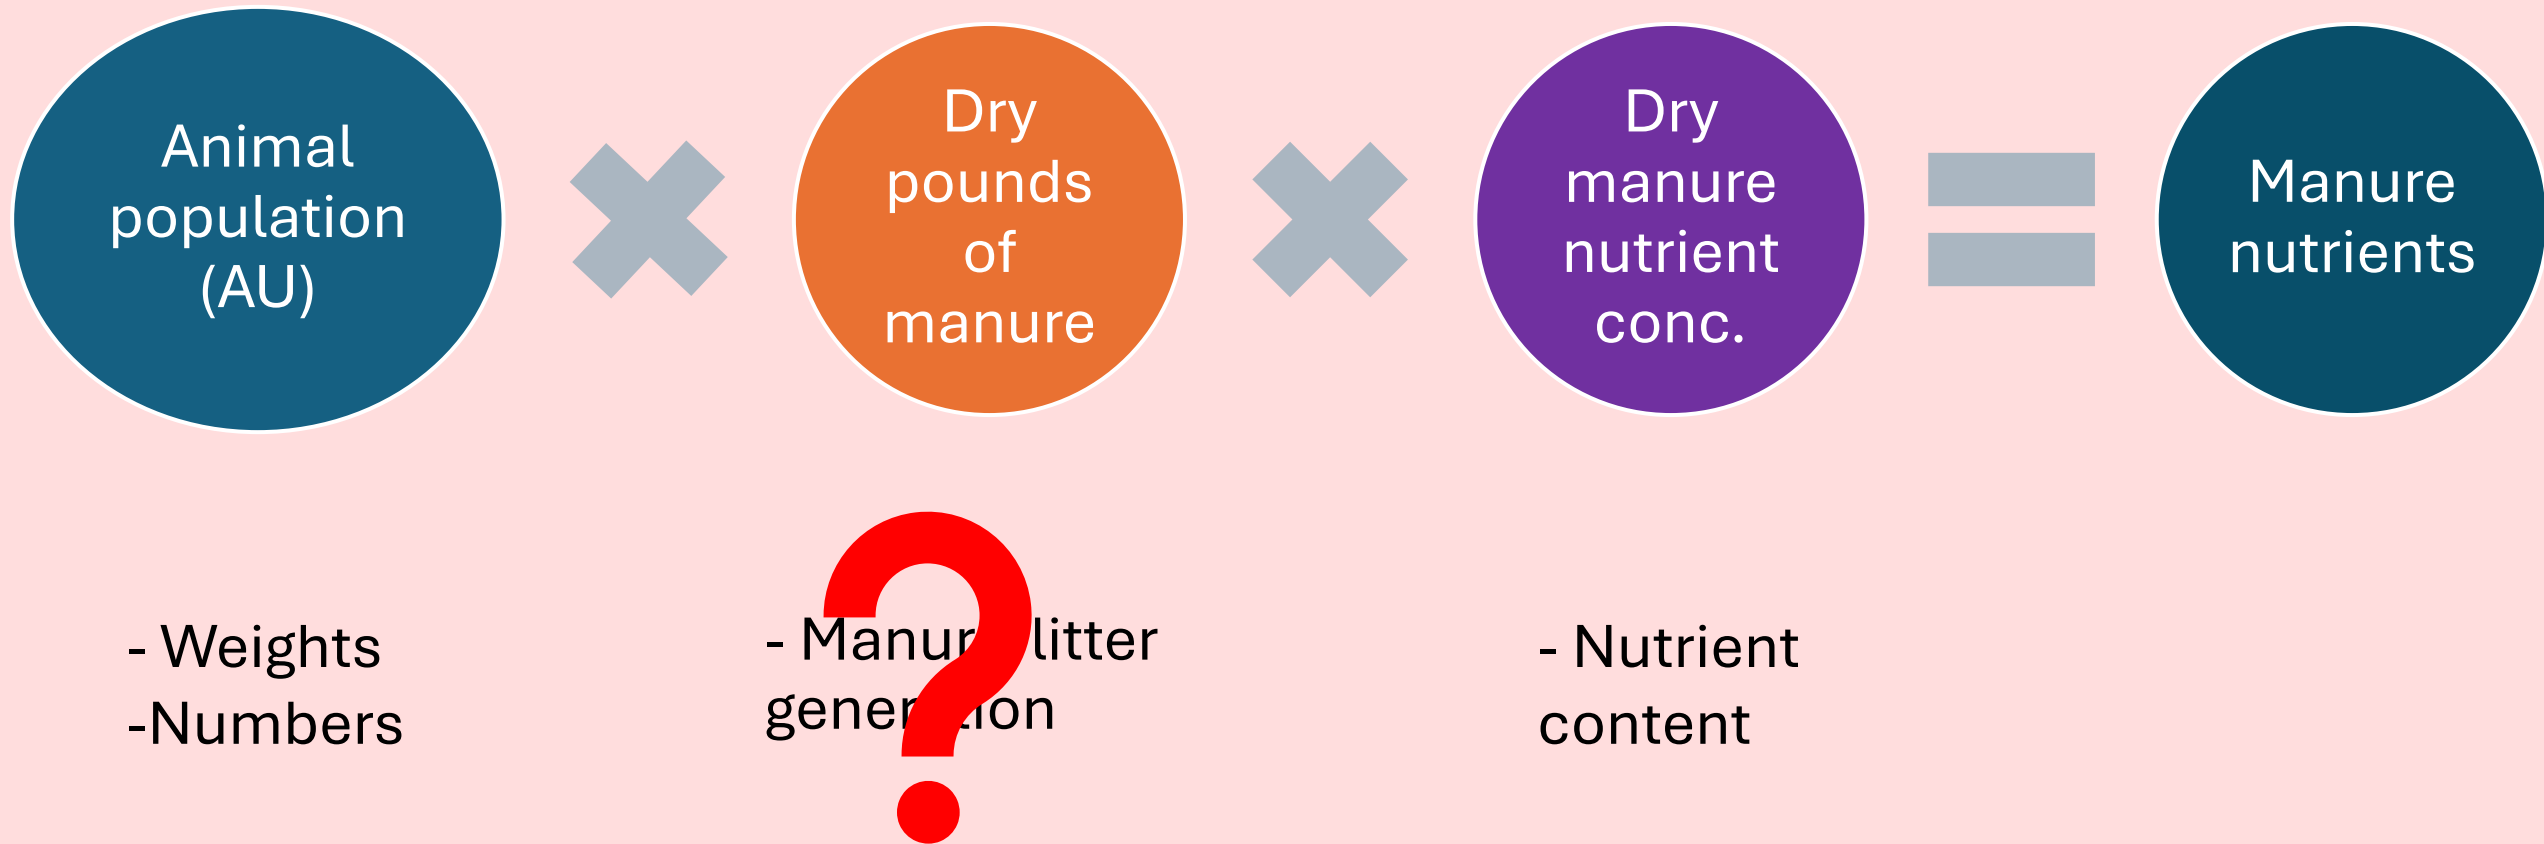

End goal of calculating manure nutrients

Poultry Industry Input

Poultry Industry Input: What's the problem?

Poultry Industry Input (Example)

Current data

100 broilers

1,000 lbs
litter

.10 lbs
N/lb.
litter

10,000
lbs
Manure
Nitrogen

Previous update suggestion

150 broilers

1,000 lbs
litter

.25 lbs
N/lb.
litter

37,500
lbs
Manure
Nitrogen

Industry provided

No new data

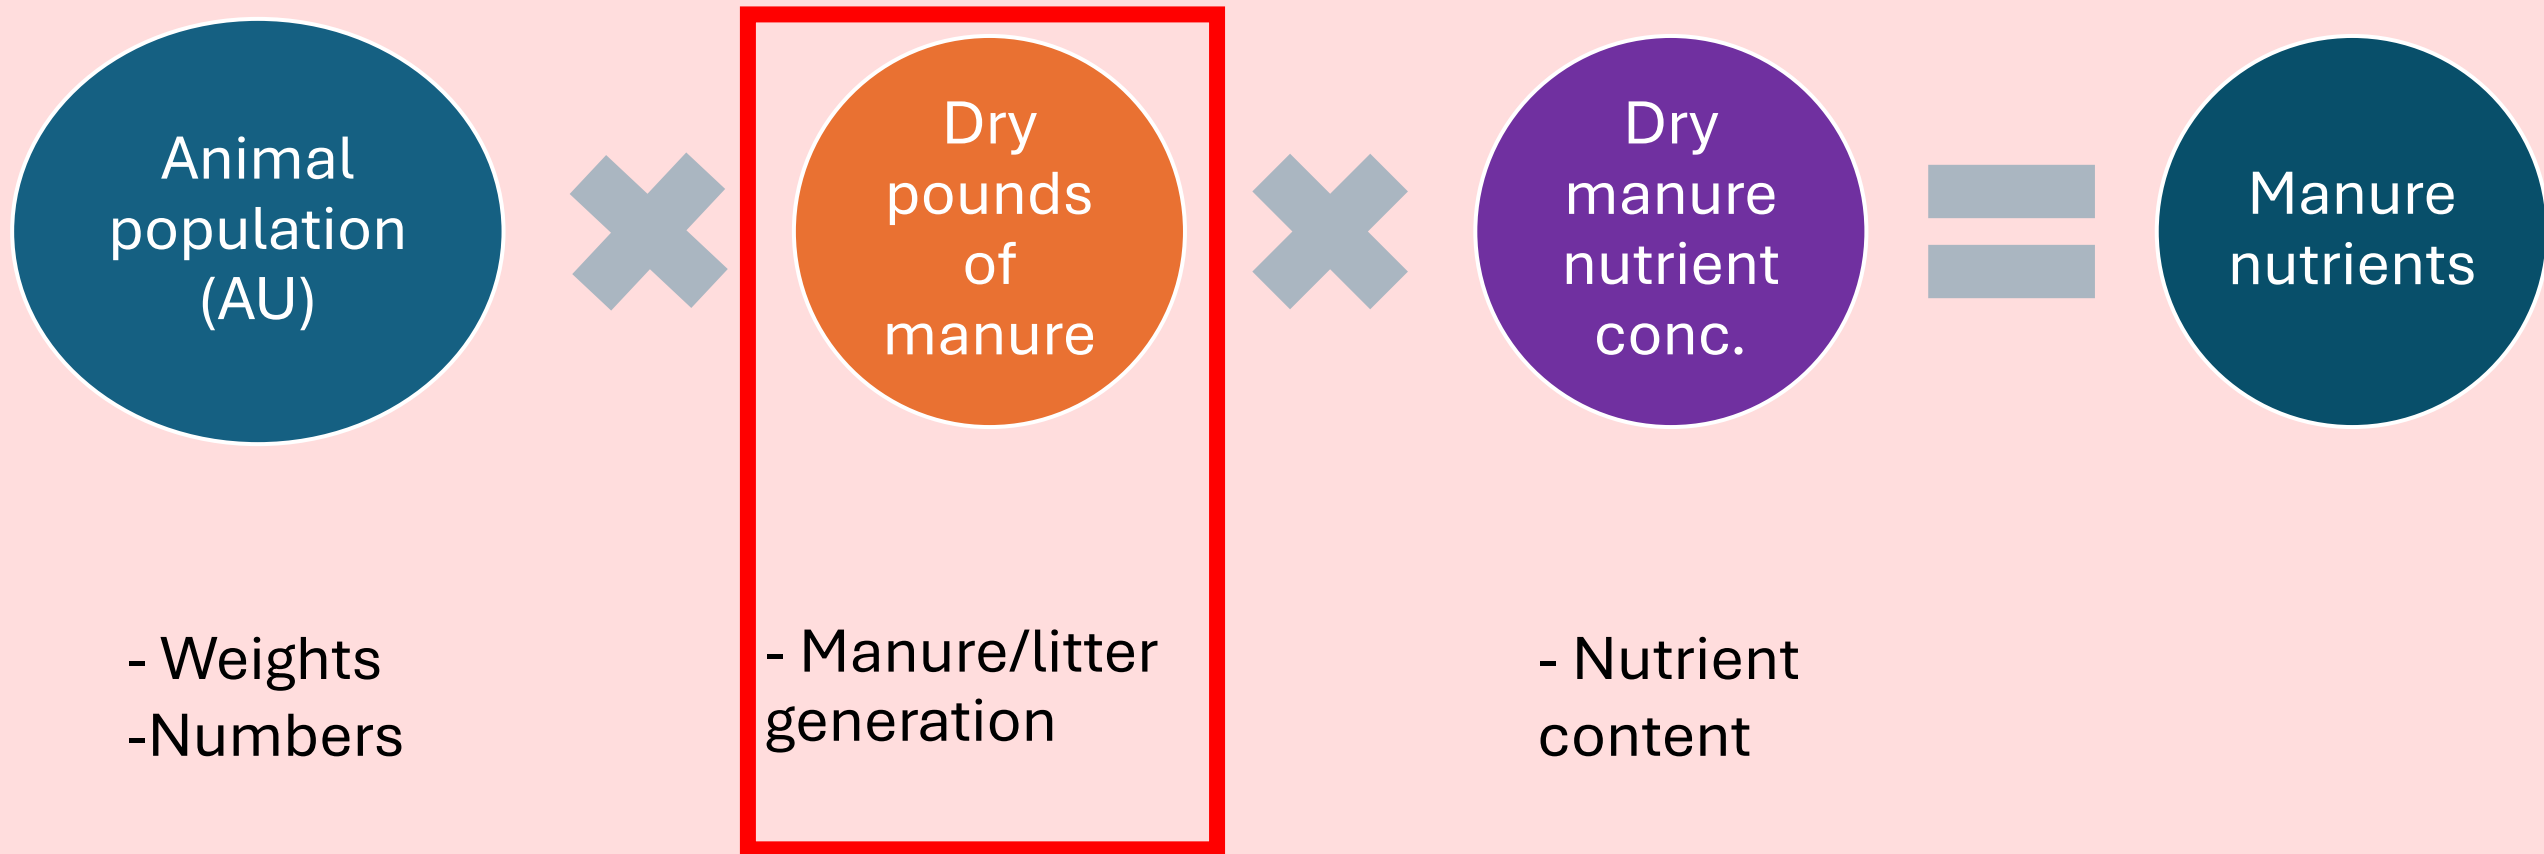

State/Industry provided

What is different now?

Focus on broilers

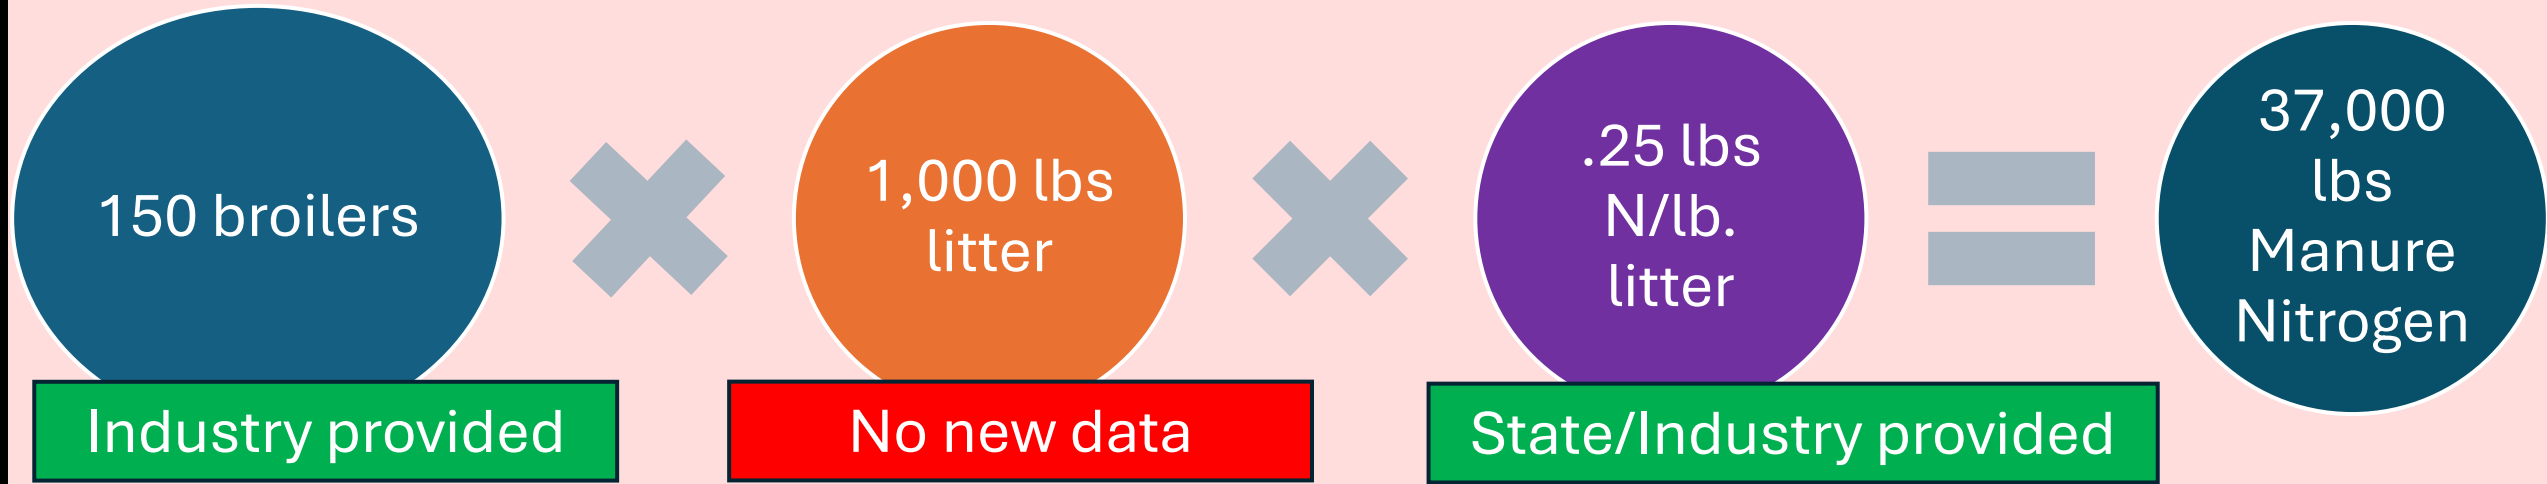

New information

Poultry Industry Input

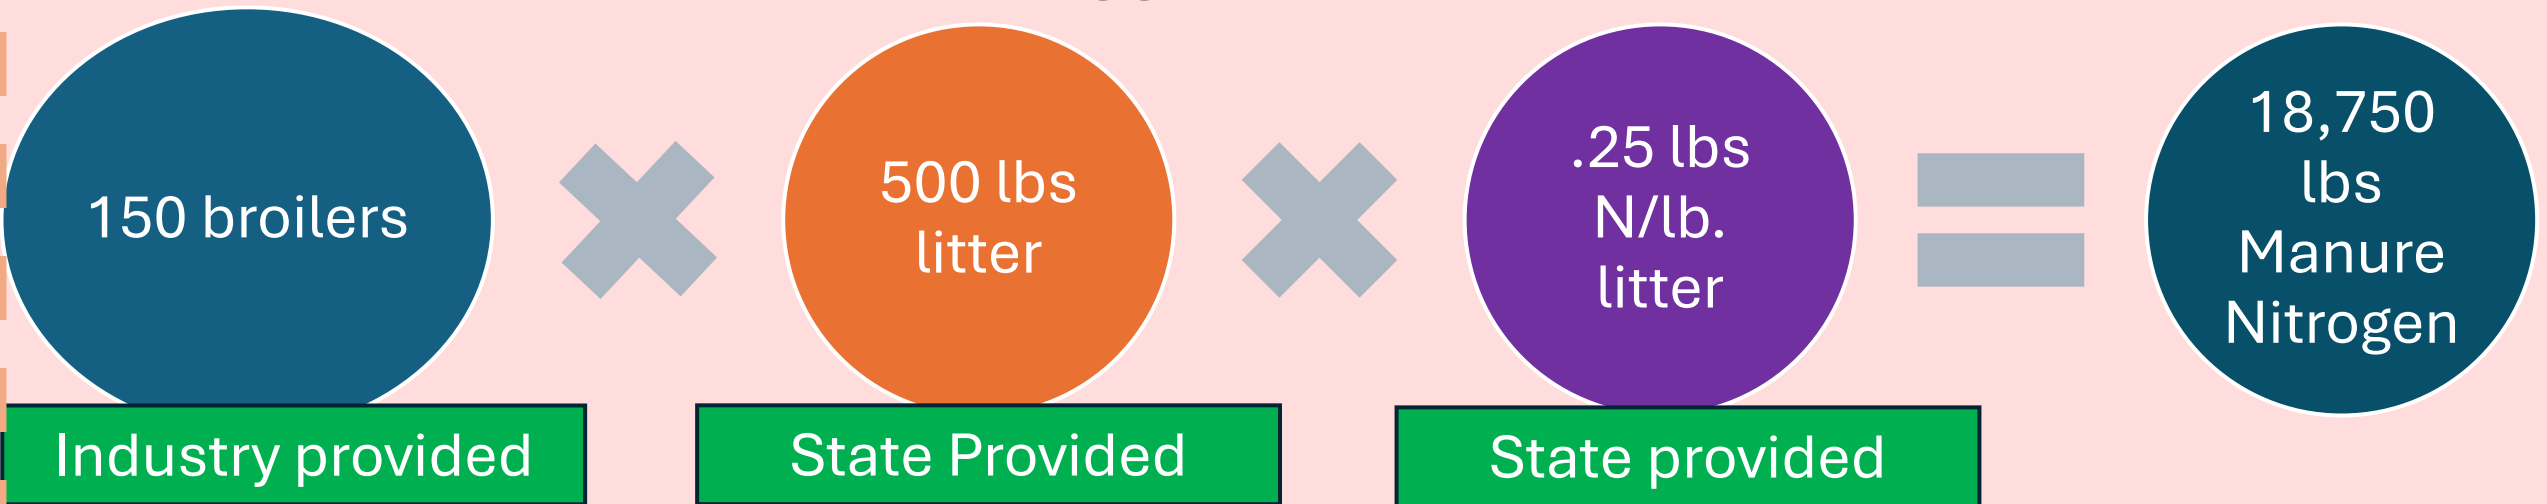

Poultry Industry Input (Example)

Previous update suggestion

NEWLY proposed update suggestion

Questions?

Next steps

- Let's get some data!
- Do the following differ between states?
 - Nutrient concentrations
 - Litter tons
