- 2:35** Lyngbya/Microseira Dynamics on the Susquehanna Flats: current research (Judy O'Neil, UMCES, and Cathy Wazniak, MDNR)
- 2:50** **Break**
- 3:00** 2025 and Beyond - Chesapeake Bay SAV Goal Attainment (Brooke Landry)

This session will include a brief presentation followed by a group discussion regarding SAV management beyond 2025. We don't need to figure it all out now, but it's time to begin the discussion. Some questions to consider: Given current SAV acreage and recent model outcomes, should we maintain our current goal? What should our interim goals look like? What should our management strategies look like moving forward? This will serve as an intro to the conversation and will be followed by a more thorough discussion of the topic at subsequent SAV Workgroup meetings
- 4:30** Wrap up and Adjourn
