New and Emerging Science Needs

- Local Leadership Survey
 - Goal is to 1) evaluate the knowledge and capacity of local officials and 2) help inform indicator
 - Completed baseline assessment in 2022
 - Because of limited funding and significant logistical hurdles, methodology included a convenience sample which was of limited statistical value
 - Considering piloting a more rigorous sampling method in 2024
 - Conduct survey every two years
 - Potential Resource: Contract support through CBPO Partnership and Accountability Branch
