*This meeting will be recorded for internal use to assure the accuracy of meeting notes.*

### AGENDA

#### **1:00 Opening and Roll Call, Announcements – Katheryn Barnhart (EPA), STWG Coordinator**

- Identifying Influencing Factors for Outcome Progress – See the email from Katheryn on November 8<sup>th</sup> for more details.

#### **1:05 Tree Canopy Indicator Proposal Dry Run – Julie Mawhorter (USFS)**

A presentation on the proposed tree canopy indicators (which have had some adjustments since they were last brought to STWG in April 2022) for STWG approval. This will also serve as a dry run before going to the Forestry Workgroup and Water Quality GIT, so STWG members are highly encouraged to provide feedback.

#### **1:45 Revisiting STWG Structure and Workplan for 2023 – Katheryn Barnhart**

A review of topics covered in 2022 and how the new structure of the workgroup, as implemented in February of this year, has fed into how these topics have been addressed. We will review what elements of the workplan have moved forward and begin the discussion around 1) proposed changes to the workplan for 2023 and 2) how/if the workgroup's structure needs to adjust to accommodate these changes. The discussion will continue in January 2023, at which point we will seek consensus for how to proceed for this next calendar year.

#### **2:30 Adjourn**
