

## Adam Lyon Bio

A graduate of the University of Maryland-College Park, Adam has served as the Field Assessment Supervisor for MDA's Watershed Implementation Program since April of 2017. In this position, he coordinates the activities of the BMP Verification Task Force and serves as the verifier in Southern Maryland and various other counties, as needed. Prior to these duties, Adam served as a Nutrient Management Specialist with MDA's Nutrient Management Program for three years and for seven years as Nutrient Management Advisor & Coordinator for the University of Maryland Extension in St. Mary's County. Adam brings hands-on agricultural experience to the workgroup, as he continues to farm in his spare time on his family grain, hay and cattle operation.
