Regarding Discussion of Land Use Projections for 2014-2015 Milestones

New data available for the Sept. 2013 land use update include Census population estimates (2011 and 2012) and population projections for VA, MD, DE, and northern Virginia (Wash COG region) based on the 2010 Census findings.

New data expected to be available for an April 2014 land use update include the 2012 Census of Agriculture, 2011 National Land Cover Dataset, new population projections for PA, Census population estimates (2013), and a variety of County land use datasets.
