

CAP WG: New Tech Addendum update.

Peter Tango
October 28, 2014

4 Action Items for Development and Approval

- Missing bathymetry: can we accept the model based volumes as interim volumes to fill a gap in 303d list reporting in MD?
- Support for science-backed sub-segmenting options for the States/DC.

4 Action Items for Development and Approval (continued).

- Decision rule regarding the use of Continuous monitoring dissolved oxygen data
- Umbrella Criterion application approach.
