

Diversity and the Chesapeake Bay Watershed Report Card

University of Maryland Center for Environmental Science

September 10, 2020

Diversity Workgroup Meeting

University of Maryland
CENTER FOR ENVIRONMENTAL SCIENCE
INTEGRATION AND APPLICATION NETWORK

Integration and Application Network (IAN)

- University of Maryland Center for Environmental Science (UMCES) created IAN in 2002
- IAN has more than a decade of experience developing report cards
- IAN has been producing the Chesapeake Bay Report Card since 2006

Chesapeake Bay Watershed Report Card

- Scored the entire watershed for the first time in 2019 using five indicators
- Intend to add more indicators, particularly a Diversity indicator.
- We need your help!

Health scale

Indicators or metrics to include

- Tree canopy example:
 - “The urban canopy directly contributes to meeting a city's regulatory clean air requirements. Access to trees, green spaces, and parks promotes greater physical activity, and reduces stress, while improving the quality of life in our cities and towns.”
 - Evaluate tree canopy coverage in underserved, low-income, and/or communities of color and compare in to tree canopy in white privileged communities.
