

Building Better Metrics

Presentation to the CBP Education Workgroup

June 10, 2013
Shannon Sprague & Jamie Baxter

What have we done in the past?

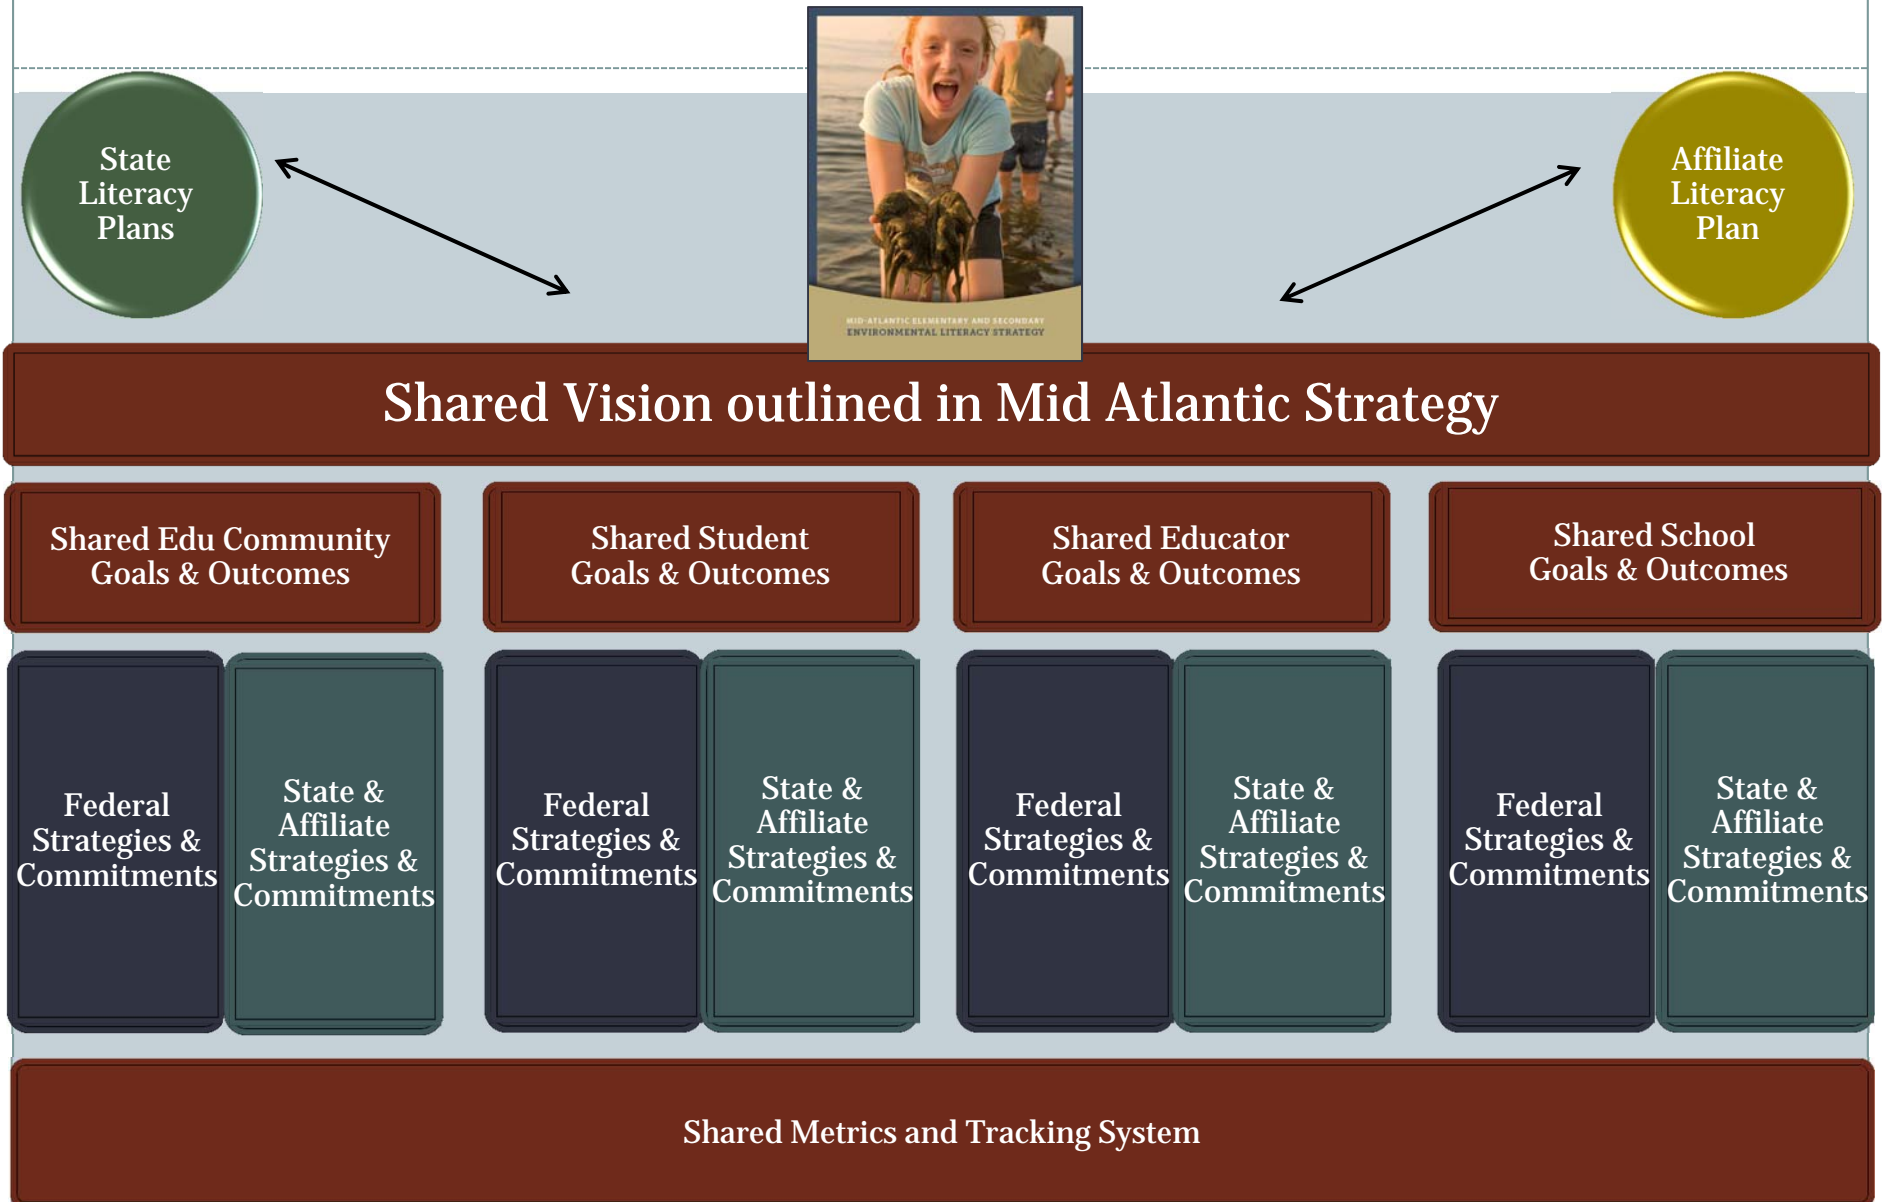

- Education Workgroup tracked MWEE progress from 2005-2009
- State departments of education (and DDOE) reported results as a percentage of public school students receiving a MWEE annually
 - Approximately 81% of elementary, 81% of middle, and 80% of high school students
- Tracking was discontinued in 2009
 - Inconsistent data
 - Non-uniform methods and rigor

Where are we now?

- 2009: Executive Council identifies need for two-year milestones
- 2010: ChesapeakeStat online reporting tool is released – has old data
- 2012: Workgroup releases Mid Atlantic EL Strategy & begins metrics development

How does this all tie together?

What is the timeline for new metrics?

AUG – OCT:
Develop
Best
Practices
(Workshop
Aug 2012)

NOV – JAN :
Develop
CBP Goal
(Workshop
Nov 2012)

FEB-MAY :
Identify
evaluation
contractor

JUN – AUG:
Finalize
outcome
metric
statements
& draft tool

SEP-OCT:
Pilot data
collection
tool

NOV 2013:
Formal
adoption at
Education
Summit

2012

2013

Phase 2

- Voluntary, online school-based reporting tool
- Will detail BMPs, teacher training, and MWEEs at schools
- Hope to connect to state sustainable school certification programs
